7	State Construction Program Fund-----	—	500,000	—
8				
9				
10	<b>GENERAL ANALYSIS</b>			
11				
12	Lump sum appropriations have been provided from which			
13	allocations to agencies are made as needed. The expenditures			
14	from such allocations are included in the individual agency			
15	budgets. That part which has not been allocated but which is			
16	estimated to be needed for further allocations, is included here			
17	as an expenditure.			
18	Funds for preparation of complete project planning are pro-			
19	posed to continue the presently authorized procedures for se-			
20	curing sound cost estimates for subsequently budgeted projects.			
21

# Part III. Local Assistance Section

## SUBVENTIONS

### FOR EDUCATION:

- Apportionments for Public Schools
- Vocational Education—Reimbursements to School Districts
- Child Care Centers
- School Building Construction
- Debt Service on Public School Building Bonds
- Contribution to Teachers' Retirement System
- School Lunch Program
- Special Milk Program
- Free Textbooks

### FOR PUBLIC HEALTH:

- Assistance to Local Agencies for Mental Health Services
- Assistance to Local Health Departments
- Assistance to Counties Without Local Health Departments
- Assistance to Counties for Tuberculosis Sanatoria
- Assistance to Counties for Care of Crippled Children
- Assistance to Local Agencies for the Treatment of Cerebral Palsied Children
- Assistance to Local Agencies for Mosquito Control
- Assistance to Local Agencies for Gnat Control
- Assistance to Local and Nonprofit Agencies for Hospital Construction

### FOR PUBLIC WORKS:

- Local Roads and Highways
- Flood Control—Department of Water Resources and Reclamation Board
- Beach Erosion Control
- Postwar Public Works
- Grade Crossing Protection Works
- Storm and Flood Damage Repair
- Earthquake Damage Repair
- Veterans Housing
- Local Projects Assistance Program
- Loans to Local Agencies for Small Craft Harbors

### FOR SOCIAL WELFARE:

- Old Age Security
- Aid to the Needy Blind
- Aid to Potentially Self-supporting Blind
- Aid to Needy Children
- Aid to Needy Disabled
- County Administration of Assistance Programs
- Local Inspection of Homes and Agencies Caring for Aged and Children
- Reimbursement to Counties for Administration and Cost of Care of Adoptions
- County Administration of Child Welfare Services

### FOR OTHER PURPOSES:

- Contributions to Judges' Retirement Fund
- Salaries of Superior Court Judges
- County Veterans Service Officers
- Salaries of County Agricultural Commissioners
- Workmen's Compensation for Civil Defense Workers
- Assistance to Counties for Maintenance of Juvenile Homes and Camps
- Assistance to Counties for Construction of Juvenile Homes and Camps
- Assistance to Cities and Counties for Peace Officers' Standards and Training
- Assistance to County Agricultural Fairs and Citrus Fruit Fairs
- Grants to Soil Conservation Districts

## **SHARED REVENUES**

### **FOR GENERAL GOVERNMENT:**

Apportionment of Liquor License Fees

Apportionment of Motor Vehicle License Fees

### **APPORTIONMENT OF FEDERAL RECEIPTS:**

Flood Control Lands

Forest Reserves

Grazing Lands

Potash Lease Rentals

### **FOR COUNTY ROADS:**

Apportionment of Motor Vehicle Fuel Tax

Apportionment of Motor Vehicle Registration and Weight Fees

### **FOR COUNTY AIRPORTS:**

Apportionment of Motor Vehicle Fuel Tax

### **FOR CITY STREETS:**

Apportionment of Motor Vehicle Fuel Tax

## GENERAL ANALYSIS

This section of the budget provides for apportionments to local school districts of (1) \$201.10 per pupil in average daily attendance in the preceding fiscal year for support of kindergarten, elementary, secondary, and technical schools in the public school system; (2) \$35 per pupil enrolled in automobile driver training instruction for reimbursement of the actual cost of motor vehicle operation instruction; and (3) a special allowance for school districts where there is a large increase in pupils due to state construction projects—"project-connected pupils."

Article IX, Section 6, of the Constitution provides that the Legislature shall add to the State School Fund revenues to provide for an apportionment each fiscal year of not less than \$180 per pupil in average daily attendance in the kindergarten, elementary, secondary, and technical schools in the public school system during the next preceding fiscal year. This apportionment per pupil was increased by the Legislature from \$180 to \$193.37 by Chapter 1073, Statutes of 1957; and from \$193.37 to \$201.10 by Chapter 1251, Statutes of 1959.

The \$201.10 per pupil in average daily attendance is for the following categories of aid to support the public school system.

Purpose	Amount per A. D. A.	Education Code Section
Basic and equalization aid -----	\$173.78	17303f
County school service fund -----		
a. Direct services -----	1.60	17303f
b. Other purposes -----	3.06	17303b
Pupil transportation -----	4.00	17303c

54				
55	<b>GENERAL ANALYSIS</b>			
56	<b>Objectives</b>			
57	The purpose of vocational education is to provide training to			
58	develop skills, attitudes, working habits and to impart knowledge			
59	and information needed by workers to enter and make progress			
60	in employment on a useful and productive basis.			
61				
62	<b>Program and Performance</b>			
63	The vocational education program for California is based on a			
64	plan, co-operatively approved and financed by local school dis-			
65	tricts, the State Department of Education and the United States			
66	Office of Education.			
67	The available funds are expended for supervision and teacher			
68	training at the state level and as reimbursements to those local			
69	districts which meet the established qualifications of the ap-			
70	proved program. These reimbursements are based on the excess			
71	costs to the school districts of meeting the prescribed standards.			
72	In accepting federal aid for vocational education, the State			
73	has provided continuing appropriations to match, in part, fed-			
74	eral grants-in-aid contained in federal vocational education leg-			
75	islation. After the deduction of state operating costs, the			
76	remaining balances of state and federal funds for supervision			
77	and teacher training costs are distributed to public secondary			
78	school districts maintaining approved courses in vocational in-			
79

## Child Care Centers

EXPENDITURES (General Fund)..... \$4,593,310 \$4,751,912 \$5,751,455

## GENERAL ANALYSIS

## Objectives

Child care centers are established to provide care and supervision of children when it is necessary for the parent to work and the parent qualifies on the basis of need.

## Program and Performance

To carry out this program the State furnishes two-thirds of the cost, or about \$0.26 per hour per child, for the maintenance and operation of the centers. The balance of the cost, or about \$0.13 per hour, is paid from fees collected from those persons utilizing the program.

The Child Care Center Program was established on a temporary basis by the 1943 Legislature and was made a permanent program by the 1957 General Session of the Legislature. The centers had 18,202,673 hours of attendance in 1958-59 for a cost of \$4,593,310.

Section 16622 (Statutes of 1955) of the Education Code provides that if during any fiscal year there is apportioned to the Child Care Center Fund more or less than the amount to which the fund was entitled the Superintendent of Public Instruction during the next or any succeeding fiscal year shall withhold from, or add to, the apportionment during such next or succeeding year the amount of such excess or deficiency. Because of this Section of the Education Code the 1960-61 Budget contains an amount of \$411,917 to meet the 1959-60 apportionment needs over and above the \$4,751,912 appropriated in 1959-60. The 1959-60 Governor's Budget was originally based on a 2.5 percent reduced to 1.9 percent over the past year. Latest estimates,

including the November period, indicate hours of enrollment for 1959-60 will increase 9.7 percent over 1958-59 rather than percent. The current increase in enrollment is estimated continue at a high rate in 1960-61 for the regular child care centers. Enrollment hours are increasing because of more children in the centers and because the children are staying for more hours than previously experienced.

Chapter 2096, Statutes of 1959, authorized a new program of child care centers for physically handicapped and mentally retarded children. No formal application requests have been made in the current year and the total \$5,163,829 apportionment for 1959-60 does not contain any provision for enrollment in this new program. However, \$46,613 is included in the proposed expenditure for 1960-61 for hours of enrollment for these special classes as several such classes are anticipated to be in operation.

The following table illustrates the past, current and proposed budget year enrollment activities of this subvention:

	Hours of enrollment	Percent of change over previous year	Total apportion- ments
1958-59.....	18,202,673	2.1	\$4,593,310
1959-60.....	19,860,882	9.7	5,163,829
1960-61.....	20,536,685	3.4	5,339,538

The administrative costs of this program are carried in the budget of the Administrative Services Bureau, Division of School Administration, Department of Education.

<b>TOTAL EXPENDITURES</b> .....	\$4,593,310	\$4,751,912	\$5,751,455	

<sup>a</sup> Federal grants and expenditures therefrom are not included in the overall budget total.

<sup>b</sup> The 1959-60 expenditure figure includes \$411,917 which is appropriated in 1960-61 to make up the deficit in the 1959-60 fiscal year.

The 1960-61 expenditure figure excludes a like amount although the appropriation will be made in that year.

## School Building Construction

## SUMMARY

## TOTAL EXPENDITURES

General Fund	\$3,670	-	-
State School Construction Fund	-	-	\$200,000
Totals	\$3,670	-	\$200,000

## GENERAL ANALYSIS

The State Allocation Board apportions money to local school districts from the State School Construction Fund if a state construction project causes population increases in the area. A district is eligible for an apportionment if the estimated number of project children and indirect project children in school attendance is at least 25 and is at least 5 percent of the school district average daily attendance.

Each school district to which an apportionment is made shall repay the principal amount either in lump sum or within a period of 30 years.

It is anticipated that the progress of the water development program will cause a need for \$200,000 during the 1960-61 fiscal year.

## GENERAL ANALYSIS

## Objectives

State bond sale proceeds are loaned to impoverished school districts of the State of California for the purpose of providing school facilities. The school districts make repayments over a period of years. The bonds that have been issued and sold constitute valid and legally binding general obligations of the State of California.

## Program and Performance

The school building loan program was first authorized by statute in 1949 and has been supplemented by subsequent legislative authorizations for the purpose of providing urgently needed public school facilities. The actual debt service experience to date is stated in the following tabulation.

Fiscal Year	Debt Service Total	Districts Repayment and Other Financing	General Fund Net Cost
1950-51-----	\$1,700,084	\$882,216	\$817,868
1951-52-----	4,951,125	2,590,110	2,361,015
1952-53-----	9,711,250	4,106,193	5,605,057
1953-54-----	13,009,500	6,501,912	6,507,588
1954-55-----	15,815,000	8,952,805	6,862,195
1955-56-----	18,345,977	9,688,236	8,657,741
1956-57-----	19,638,340	12,234,594	7,403,746
1957-58-----	24,776,116	14,924,583	9,851,533
1958-59-----	28,977,634	15,701,508	13,276,126
1959-60-----	33,313,500	17,047,677	16,265,823
1960-61 (estimated)-----	39,092,250	21,579,244	17,513,006

The amount to be repaid by the school districts is determined each year by the relationship between the assessed valuation of the district and the amount the district must raise by local property taxes for payment on its bonded debt. Provision for

Interest-----	739,750	689,750	639,750
Redemption-----	1,000,000	1,000,000	1,000,000

<sup>a</sup> Expenditures from bond funds are not included in the overall budget totals.

deferment of annual repayment was first authorized by Chapter 1880, Statutes of 1957. This legislation was subsequently amended by Chapter 4, Statutes of 1958, and by Chapter 533, Statutes of 1959. The provisions providing for district deferment of annual repayments is increasing in significance in the district repayment computations as indicated by the following data with a resultant effect upon the cost to the General Fund

Fiscal Year	Total Deferred Payment
1957-58-----	\$974,524
1958-59-----	2,787,825
1959-60-----	5,445,560

The period for repayment of deferred amounts was previously extended from 30 years to 40 years, after which time any unrepaid deferred amounts are to be canceled.

Authorized bonds have been sold to the extent of \$665,000,000 as of December 31, 1959, and an additional sale of \$50,000,000 is tentatively scheduled to occur in June 1960 under authorization of Chapter 98, Statutes of 1958, First Extraordinary Session.

It is planned to make a temporary loan from the California Water Fund to the State School Building Aid Fund in such amounts as are directed by the State Allocation Board under authorization of Chapter 15, Statutes of 1958 as amended by Chapter 140, Statutes of 1959. The loan will be required by June 1960 for the period prior to the bond sale cash settlement. Subsequent bond sales of \$50,000,000 are tentatively scheduled at six-month intervals thereafter.

New bond authorizations will be required to continue the program.

<b>Contributions to Teachers' Retirement Fund</b>				
TOTAL EXPENDITURES ( <i>General Fund</i> ) -----	\$14,455,898	\$40,254,000	\$38,700,000	—\$1,554,000 (—3.9%)

## GENERAL ANALYSIS

The State Teachers' Retirement System will contain 241,252 active members, with an additional retired roll of 23,026 members on June 30, 1961. Since July 1, 1944, members' contributions have been on a full reserve basis. State contributions are appropriated in amounts required to liquidate the amount of maturing liabilities not funded from the members' accumulated reserve, and the contributions of employers, rather than as the liabilities accrue. Since July, 1956, the members contributions are fixed in percentages of salary which on the average will provide for accumulation of funds sufficient to pay for one-half the cost of the member's benefit for such service. The district payment since July 1956, has been 3 percent of the teacher payroll in the district (with a maximum limitation of an amount equal to \$0.05 per \$100 assessed valuation) plus \$12 per teacher. Before 1956, only the \$12 per teacher payment was made by the district.

The State finances expenditures not funded by the contributions of employing agencies and members. The State's contributions to the Teachers' Retirement Fund and the Retirement Annuity Fund are used to finance the major portion of expenditures for retirement allowances. The major portion of such allowances is payable for prior service which is funded entirely from contributions of the State and the employing districts. Subventions to local retirement systems and a portion of death benefits from the Retirement Annuity Fund are also provided from state contributions.

The subventions to local systems consist of payments of amounts equal to the allowances which would have been payable had the retired members involved been entitled to benefits from the State system alone. The payments are made on the basis of the amounts withheld from local members in the preceding year, and are reduced by one-half of the benefit payable on account of service after 1944 on which no Retirement Annuity Fund contributions have been paid.

Chapter 2060, Statutes of 1959, added a program of monthly benefits for survivors of active members who die while in service. These benefits are payable upon such deaths as they occur after September 30, 1959. Currently the benefits are being financed from a reserve of contributions credited on account for service rendered prior to July 1, 1944.

The large increase in the General Fund contributions for 1959-60 was due to the exhaustion of the Restricted Reserve, established by Chapter 13, Statutes of 1944 (Fourth Extraordinary Session.) In accordance with the provisions of Chapter 1073, Statutes of 1957, approximately one-half of this reserve was applied against the State's contribution from the General Fund in 1957-58 and the remainder applied in 1958-59.

The slight decrease in the General Fund contribution for 1960-61 results from two factors: (1) the 1959-60 expenditures will be less than anticipated thus leaving a surplus and, (2) the 1959-60 appropriation also included about \$3,000,000 to finance an underestimate of expenditures in the 1958-59 fiscal year.

## ANALYSIS OF EXPENDITURES

Retirement allowances -----	\$55,906,875	\$61,411,069	\$66,112,000
Death benefits -----	1,402,909	1,700,000	1,900,000
Survivor benefits -----	—	120,000	250,000
Subvention to local retirement systems -----	3,559,022	2,105,947	1,809,000
TOTAL EXPENDITURES ( <i>Teachers' Retirement Fund</i> ) -----	\$60,868,806	\$65,336,116	\$70,071,000

## SOURCE OF EXPENDITURES

State Contributions:			
Transfer from General Fund -----	\$14,455,898	\$40,254,000	\$38,700,000
Restricted reserve -----	20,164,102	—	—
Balance from prior year transfer -----	—3,326,055	—2,902,775	540,000
Deficit in transfer <sup>a</sup> -----	2,902,775	—	—
Surplus in transfer <sup>b</sup> -----	—	—540,000	—
Totals, State Contributions -----	\$34,196,720	\$36,811,225	\$39,240,000
Unrestricted reserve -----	—	120,000	250,000
Employer contributions -----	22,872,295	23,740,000	24,850,000
Member contributions -----	3,799,791	4,664,891	5,731,000
TOTAL EXPENDITURES ( <i>Teachers' Retirement System</i> ) -----	\$60,868,806	\$65,336,116	\$70,071,000

## RECONCILIATION WITH APPROPRIATIONS

## General Fund

Budget Act appropriation (Transfer to the Teachers' Retirement Fund) -----	\$34,620,000	\$40,254,000	\$38,700,000
Chapter 1073, Statutes of 1957 (Transfer from the Teachers' Retirement Fund—Restricted Reserve) -----	—20,164,102	—	—
TOTAL EXPENDITURES -----	\$14,455,898	\$40,254,000	\$38,700,000

<sup>a</sup> Amount by which expenditures exceeded original estimate when appropriation was made.

<sup>b</sup> Amount by which original estimate of expenditures exceeded revised estimate.

63					
64	The textbook program provides for publishing and purchasing	New Adoptions:			
65	textbooks approved by the State Board of Education, and dis-				
66	tributing them so as to make them available to pupils in the				
67	elementary grades of the public schools within the State.				
68	The 1960-61 Budget proposes a 23.6 percent increase, the				
69	major cause being a new reading adoption by the State Board of				
70	Education which will be printed in 1960-61. This anticipated				
71	adoption of 2 basic reader series is to be distributed on the				
72	basis of 1 of each series to each 2 pupils at the specified grade				
73	level. The budget also proposes the adoption of 3 supplement-				
74	ary series which are to be distributed on the basis of 1				
75	of each series to each 4 pupils at the specified grade level. As				
76	printing plant capacity will not permit filling the entire 2-				
77	year order, only a 1-year supply is budgeted, with the exception				
78	of the teachers' manuals due to the small number of copies				
79	involved. Final action is anticipated on these adoptions by the				
80	State Board of Education in March, 1960.				
81	a Federal funds and expenditures therefrom are not included in the overall budget totals.

## Assistance to Local Agencies for Mental Health Services

TOTAL EXPENDITURES (General Fund) ----- \$510,762 \$1,881,300 \$2,844,775

## GENERAL ANALYSIS

Financial assistance to local governments may be granted under Section 9034 and pursuant to Section 9030 of the Welfare and Institutions Code in the establishment and development of mental health services, including services to the mentally retarded, through locally administered and locally controlled community mental health programs. It is designed to augment and promote the improvement and, if necessary, the expansion of already existing local psychiatric services in general hospitals or clinics that help to conserve the mental health of the people

of California, and is administered by the Department of Mental Hygiene.

The program was initiated in January 1958. While the increase of \$963,475 is predicated upon the continuation and expansion of existing programs and the inclusion of additional local jurisdictions that have indicated participation, the actual development of the program has been slower than anticipated. Actual expenditures in 1958-59 were \$1,089,238 lower than budgeted and the 1959-60 program is likewise \$603,890 lower than approved in the 1959 Budget Act.

## RECONCILIATION WITH APPROPRIATIONS

14	<b>GENERAL ANALYSIS</b>			
15	These federal and state funds may be allocated to qualified	per capita per county, or \$16,000 per county, whichever is the lesser, as a basic amount, plus 20,735,401 cents per capita. The 1960-61 amount is calculated on July 1, 1960, population estimate of 15,830,000. After allocation for special local dem- onstration and investigation projects, the balance of the fed- eral funds is distributed in the same ratio as State funds.		
16	health departments pursuant to Section 1100 of the Health			
17	and Safety Code to provide effective local public health serv-			
18	ices. State funds are allocated to local health departments in

## Assistance to Counties for Tuberculosis Sanatoria

TOTAL EXPENDITURES (General Fund) ----- \$5,116,905 \$4,564,060 \$4,763,890

## GENERAL ANALYSIS

Section 3298 of the Health and Safety Code provide for state grants-in-aid to counties for the treatment and care of persons suffering from tuberculosis. Decreased patient days result from

improved techniques of early case finding and treatment, decreased incidence of disease, and decreased bed occupancies. The latter is shown in the following table:

	ACTUAL				ESTIMATED	
	1955-56	1956-57	1957-58	1958-59	1959-60	1960-61
Patient-days -----	1,822,007	1,646,621	1,432,232	1,322,020	1,232,870	1,168,000

Section 3300 of the Health and Safety Code specifies allocation of the subsidy at \$2.60 per patient-day for the first 36,500 patient-days of care, \$2.30 per patient-day for the second 36,500 patient-days, and \$1.75 for all additional days plus an additional amount specified in each budget act. The Budget Act of 1959 provided a supplement amount of \$1.47 to each category.

A supplemental amount of \$1.76, an increase of \$0.29 over the Budget Act of 1959, is proposed for the 1960-61 fiscal year, based on the increased cost of care experienced by local sanatoria. This increase in supplemental aid accounts for the increase in estimated expenditures in the light of decreasing incidence of the disease.

In 1954, Los Angeles County brought suit to have Section 5198, California Administrative Code, declared invalid. The suit was decided in favor of the plaintiff and upheld by the State Supreme Court in May 1958. As a result, additional Los Angeles County claims totaling \$482,367 were approved by the Board of Control, and paid from the past year appropriation based on invalidation of Section 5198.

The proposed legislation concerning pay-patients was amended by the Legislature to reduce the state share of these receipts substantially below that proposed in the Governor's budget; in addition, the rate of decrease of patient-days of care has not been as high as anticipated. To pay authorized subsidy claims during the current year, an additional \$612,700 will be required, therefore a deficiency is proposed in this budget.

Section 3295 of the Health and Safety Code provides for the care of persons suffering from tuberculosis who violate the quarantine or isolation orders of the county health officer. An agreement has been made with the Department of Corrections to care for these persons at the Medical Facility at Vacaville and the Institution for Women at Corona. Included in the budget request is \$88,950 to reimburse the Department of Corrections for an average occupancy of 41 beds. Such sums had previously been a charge against the support budget for the Department of Public Health.

Treatment	—	59,835	—
Totals	\$4,141,723	\$5,263,895	\$5,950,000

## GENERAL ANALYSIS

This budget provides funds for a state program for handicapped children, as authorized by Section 256 of the Health and Safety Code. The code provides that whenever the parent or guardian of the child is unable to finance necessary care, a designated agency of the county shall request the State to furnish such services. Further, Section 270 makes it mandatory that each county appropriate at least 1/10 mil on each dollar of assessed property valuation to finance the program.

As the state program is directly related to the program of the various counties the 1960-61 Budget reflects the funds which the counties estimate will be necessary to match their programs as required by law. The increase in the state budget in 1960-61 is caused by an increase in the number of children receiving or eligible for care and an increase in types of cases formerly not treatable and a minor increase because of the addition of the nephrosis and poliomyelitis cases. Program is based on a county-by-county projection.

The budget formula for distribution of these funds is as follows:

## a. Treatment:

After the county has spent the 1/10 mil, the State will provide funds sufficient to bring the program up to \$20,000, or 3/10 mil, whichever is greater. Treatment costs beyond that point will be shared in the ratio of \$2 of state funds to \$1 of county funds.

## b. Administrative Allowance:

The State will contribute two-thirds of the cost of administration of each independent county program, made in accordance with an approved budget, but not to exceed 6 2/3 percent of the treatment expenditures in the prior year.

## c. Diagnosis and Noncounty Resident Care:

The State finances the cost of diagnosis for all children believed to have a condition eligible for treatment and the cost of treatment when the county of residence cannot be established.

Services rendered include necessary medical examinations and consultations, medical and surgical procedures, office and hospital visits, hospitalization, convalescent home care, rehabilitation services, and appliances such as artificial limbs, braces, hearing aids, etc.

Eligible medical conditions for this program are those which are remediable. During the past year 58,100 children received services in the following general categories:

Condition	Number receiving service
a. Require plastic or orthodontic reconstruction	7,000
b. Lead to loss of vision or hearing	20,700
c. Rheumatic or congenital heart disease	6,200
d. Other disabling deformities	24,200

Services are provided under strict medical specialist direction through a panel of physicians and surgeons who meet the specialist requirements established by the medical profession. Care is purchased according to an established fee schedule from physicians and on a per diem rate basis from participating hospitals. Program services are rendered by approximately 3,600 panel physicians and in 150 approved hospitals located in most counties in the State.

By special legislation in the 1959 Session, nephrosis was specifically added to the disabling conditions to be included in this program.

General Fund	11,597	20,958,271	18,258,000
Flood Control Fund of 1946	10,822,772	—	—

## PROJECT DETAIL

Major Federal-State Flood Control Projects—  
Department of Water Resources

Chapters 1, 2, 3, and 4 of Part 6, Division 6 of the State Water Code provides that the State will pay for lands and relocation of improvements in connection with federal flood control projects which have been adopted and authorized by the Legislature.

This reallocation schedule provides for the continuation of 10 currently authorized projects and 1 project in Santa Barbara County requiring funds for the first time.

Watershed Protection Projects—Department of  
Water Resources

This program is known as Public Law 566, Act of 1954 (amended by Public Law 1018, Eighty-fourth Congress, Second Session, 1956) entitled "Watershed Protection and Flood Prevention Act of 1954." The act provides for the construction of works of improvement for the purposes of flood prevention and the agricultural phases of conservation, development, utilization and disposal of water. In any watershed or subwatershed areas the projects shall be limited to 250,000 acres and shall not include structures having a capacity of more than 5,000 acre-feet for flood prevention, or a capacity of more than 25,000 acre-feet for all purposes. This group of 6 projects represents those which are administered at the federal level by the Department of Agriculture. One project at Walnut Creek is based on the Public Law 46 Pilot Plant Program while the remaining group is based on subsequent legislation.

Small Flood Control Projects—Department of  
Water Resources

Public Law 685 authorizes the Secretary of the Army to allot from appropriations heretofore or hereafter made for flood control not to exceed \$10,000,000 in any one fiscal year, for the entire United States, for the construction of small flood control projects not specifically authorized by Congress, provided that not more than \$400,000 be allotted for this purpose at any single locality from the appropriations for any one fiscal year. Two such projects will be active during 1960-61.

Sacramento-San Joaquin River Drainage Basin  
Projects—Reclamation Board

Through the State Reclamation Board, the State co-operates with the Federal Government in the construction of flood control projects in the Sacramento-San Joaquin River drainage basin. The extent of state participation is determined by the several acts adopting and approving specific projects and for which appropriations to meet the State's cost are made as necessary. Generally such participation consists of the acquisition of rights-of-way, easements, flowage rights, and the cost of replacement or relocation of permanent improvements as necessitated by the construction of the flood control works.

The 1960-61 Budget proposes a continuation of the Sacramento River Flood Control Project, the San Joaquin River Flood Control Project and the addition of the Calaveras River and Littlejohn Creek, and tributaries.

Total expenditures for 1960-61 are estimated to be \$3,610,000. Further explanation of the program will be found in the support budget for the board.

12	Beach erosion control in California is the responsibility of	participation required by authorized federal projects, including construction costs and costs of lands, easements and rights-of- way. Advances by the State for the federal share of the cost of beach erosion control projects is permitted under Section 338 of the Water Code. Such advances are returned to the State upon completion of a project or a severable portion of a project.		
13	the Department of Water Resources as defined in Sections 330			
14	to 339, inclusive, of the Water Code which provides for study			
15	of beach erosion problems, co-operation with all federal, state			
16	and local agencies in planning and construction within the

## Postwar Public Works

TOTAL EXPENDITURES (*Postwar Unemployment and Construction Fund*) -----

—\$4,450

-

-

## PROJECT DETAIL

Payments to local agencies of not more than one-half the cost of preparing plans and acquisition of sites for postwar public works projects and for construction of projects. Funds for construction are allocated one-half to the counties in proportion to population, plus \$100,000, of which one-third shall be for construction of roads and highways; and one-half to the cities in

proportion to population. Pursuant to Sections 26 and 27 of the Construction and Employment Act (as amended by Chapters 1435 and 1436, Statutes of 1955) appropriations for which application was not made by January 1, 1957, reverted to the General Fund.

11				
12				
13	<b>GENERAL ANALYSIS</b>			
14				
15	<p><b>FLOOD RELIEF LAW OF 1956:</b> Chapter 9, Statutes of 1956 (First Extraordinary Session), appropriated \$24,900,000, of which \$14,500,000 is payable from the General Fund and \$10,400,000 was made available for loans from the State Lands Act Fund. The amount appropriated from the General Fund is subject to allocation by the State Public Works Board to provide assistance to local agencies; including any city, county and county, county, or public district, for repair and restoration of public property damaged or destroyed by storm and flood during the months of December, 1955, and January and February, 1956. The amount appropriated from the State Lands Act Fund is for loans to local agencies for the completion of any project or projects wherein the local agencies are unable to meet their share of the cost. The 1957 Legislature appropriated an additional \$1,200,000 to complete the financing of the program and the 1959 Legislature extended the availability until June 30, 1960. It is anticipated that all projects will have been completed by that date. As of June 30, 1959 a total of \$190,688 has been loaned from the State Lands Act Fund to 10 local agencies of which \$23,433 has been repaid. The repayment period will continue through fiscal year 1966-67.</p>			
16	<p><b>FLOOD RELIEF REDEVELOPMENT LAW:</b> Chapter 58, Statutes of 1956 (First Extraordinary Session), appropriated \$3,500,000 from the General Fund to provide a loan fund to permit local redevelopment agencies to acquire real property in flood damaged areas where the agencies are planning redevelopment projects and prior to the availability of federal funds to carry them out, and to assist such agencies in financing the local share of such projects.</p>			
17	<p>To date only 1 loan in the amount of \$106,163 is outstanding against the appropriation. Repayment of the loan is over a 10-year period at the rate of 4 percent interest on the unpaid balance. This appropriation expired on June 30, 1958.</p>			
18	<p><b>FLOOD RELIEF FOR 1958:</b> Item 446.7, Budget Act of 1958, appropriated \$15,000,000 from the Investment Fund to provide financial assistance to local agencies for the repair and restoration of public real property damaged by storm or flood during the period between January 1, 1958, and July 1, 1958. As of December 31, 1958, the cut-off date for filing for assistance under this act, 162 applications have been received. It is estimated that state assistance for those approved applications will be nearly \$8,500,000. Action by the 1960 Legislature will be required to extend the existing law into 1960-61 so as to extend the appropriation to those applicants that have not completed their projects. In addition to the general flood relief program reviewed above the Budget Act of 1958 provided \$780,000 from the Investment Fund (Item 446.2) for damage on the Sacramento River Flood Control Project of which \$532,387 has been expended. The balance remaining will revert on June 30, 1959. An additional \$1,000,000 was provided from the Investment Fund (Item 446.8) to be used for work and remedial measures required to avert, alleviate, repair or restore damage or destruction to property having a general public and state interest, after a declaration of emergency.</p>			
19	<p>Chapter 982, Statutes of 1959 provided \$14,000 from the General Fund to be matched by local agency funds for the repair and reconstruction on the levee of the Sacramento River in the vicinity of Collinsville.</p>

## Local Projects Assistance Program

The 1959 Legislature created the Local Projects Assistance Fund with an appropriation of \$15,000,000 to be transferred from the California Water Fund. The appropriation is available to make loans and grants to local agencies for local water project construction. The act requires that all loans and grants be approved by the California Water Commission and loans

over \$4,000,000 and grants over \$300,000 must be authorized by the Legislature.

The act further provides that if Senate Bill 1106 is enacted and approved by the voters, the Local Projects Assistance Fund is abolished and its resources shall be transferred to the California Water Fund.

## GENERAL ANALYSIS

The Division of Small Craft Harbors and the Small Craft Harbors Commission were created by Division 5.7 of Part I, Public Resources Code. The powers of the division are executed by the chief of the division acting under the supervision and direction of the Director of Natural Resources. The commission establishes the general policies. The division is to concern itself with the program of developing small craft harbors and maintaining or improving the waterways of the State. At the present time the agency is functioning in the area of assistance to cities, counties, or harbor districts in the planning of small craft harbors and waterways development. The assistance may be in the form of engineering advice, surveys, and site inspection. During the final planning stages in which preliminary plans are developed into contract plans and specifications this assistance would take the form of planning loans and engineering consultation. The agency may also provide construction loans to those local jurisdictions that can properly qualify. All financial assistance to local jurisdictions whether for planning or construction will be on a loan basis.

As a part of the long-range program it is contemplated that the division will also construct harbor facilities as a state development in areas where the need is great and where complete development of the project is beyond the financial capability of a local agency. The first phase of an estimated \$4,000,000 harbor project at Shelter Cove in Humboldt County was provided by Chapter 1875, Statutes of 1959. This program is reported in the Capital Outlay section of this budget. Although

other harbors of refuge have been proposed, the commission considers that Shelter Cove should be developed first because of its location. Humboldt County has already provided for access road construction by obtaining options on the land required, and by master planning an airport development at the site as initial development. The legislation provides that construction funds for this project be made available in the amount of \$460,000 contingent upon the execution of an agreement that the County of Humboldt will take over the Shelter Cove project on the date the total amount appropriated for the project is expended and assume an obligation for repayment to start within six years.

The Small Craft Harbors Commission has been authorized to make expenditures from any funds available from the sale of bonds authorized by the Harbor Development Bond Law of 1958. It is provided in this law that loans might be made to cities, counties and districts having power to acquire, construct, and operate small craft harbors. While the bonds which are authorized by this law are general obligation bonds it was contemplated that the bonds would be self-liquidating. At the present time there is no provision in the enabling law for the initial bond service charges to be met from any source other than the General Fund. Principal repayments and interest income from loans would initially be inadequate to cover the bond service charge; therefore, the repayments would be General Fund obligations.

## FEASIBILITY AND PLANNING STUDY LOANS

## PROJECT DETAIL

Section 5827 of the Public Resources Code authorizes the Division of Small Craft Harbors to make planning loans to cities, counties or districts having power to acquire, construct and operate small craft harbors. Such loans as are made must be repaid within 10 years and repayment must include a charge estimated to equal the revenue which the State would have de-

rived by investing the total deferred payment at the interest rate prevailing for legal state investments.

The 1960-61 fiscal year program proposes the continuation of the planning loans. It is estimated that approximately \$125,000 in loan requests will be received by the commission in 1960-61.

Alviso, Santa Clara County -----	\$10,000	-	-

5				
6				
7	<b>PROJECT DETAIL</b>			
8				
9	Section 5827 of the Public Resources Code authorizes the			
10	Division of Small Craft Harbors to make construction loans to			
11	cities, counties, or districts having power to acquire, construct,			
12	and operate small craft harbors. The division may loan money			
13	for acquisition, construction, improvement, maintenance, or op-			
14	eration of small craft harbors and related facilities. In addition			
15	the division may concern itself with connecting waterways. The			
16	division is charged with the responsibility of determining that a			
17	project is feasible. The commission functions as the policy body			
18	in establishing the policies and standards to be used in making			
19	loans.			
20	A brief statement of the present policies and standards			
21	follows:			
22	1. All planning shall have been completed and copies of such			
23	plans and reports submitted to the division for approval.			
24	2. The feasibility study shall indicate a favorable benefit-cost			
25	ratio.			
26	3. All property to be used in connection with the project			
27	shall be owned or fully controlled by the requesting public			
28	agency; or, an agreement-to-sell by the owner at a stated			
29	reasonable price shall be obtained prior to final approval			
30	of the loan.			
31	4. A repayment agreement approved by the governing body			
32	of the requesting public agency shall be submitted with			
33	the application indicating the proposed method of loan			
34	repayment.			
35	Avila, San Luis Obispo County -----	-	\$100,000	-
36	Acquisition of land, construction of breakwater, launching ramp,			
37	and parking lot. Responsible agency, Port San Luis Harbor			
38	District.			
39	Total estimated project cost -----			\$1,700,000
40				
41	Blythe, Riverside County -----	-	-	\$500,000
42	Increase boating facilities on the Colorado River to provide access			
43	to critically needed recreational water areas. Responsible			
44	agency, Riverside County.			
45	Total estimated project cost -----			\$1,600,000
46				
47	Bodega Bay, Sonoma County -----	-	-	500,000
48	Construction of a launching ramp, mooring basin, berthing facili-			
49	ties, and residential and industrial land. Responsible agency,			
50	Sonoma County.			
51	Total estimated project cost -----			\$1,639,000
52				
53	Broderick, Yolo County -----	-	60,000	-
54	Construction of boat slips, launching ramp, dry storage, repair and			
55	sales building. Responsible agency, Yolo County.			
56	Total estimated project cost -----			\$114,000
57				
58	Crescent City, Del Norte County -----	-	-	250,000
59	Construction of berthing facilities for 25 boats, and extension of			
60	existing wharfs. Responsible agency, Crescent City Harbor			
61	District.			
62	Total estimated project cost -----			\$642,611
63				
64	Eagle Lake, Lassen County -----	-	65,000	-
65	Construction of a breakwater, 20 floating slips, and a launching			
66	ramp. Responsible agency, Lassen County.			
67	Total estimated project cost -----			\$66,412
68				
69	Imperial Beach, San Diego County -----	-	200,000	-
70	Construction of a jetty, 4 ramps, 1,650 berths, and dredging of			
71	Oneonta Lagoon. Responsible agency, City of Imperial Beach.			
72	Total estimated project cost -----			\$4,500,000
73				
74	Martinez, Contra Costa County -----	-	600,000	700,000
75	Construction of a breakwater, 300 berths, a launching ramp, and			
76	dredging. Responsible agency, City of Martinez.			
77	Total estimated project cost -----			\$1,300,000
78				
79				
80				
81				
82				
83				
84				
85				
86				

5. If the loan does not cover the entire cost of the project, a financing plan shall be submitted indicating sources of construction funds other than the loan being applied for, and the proposed method of retiring the loan and meeting other financial obligations of the project.

6. An operating plan shall be submitted indicating how the harbor will be operated and maintained on completion of construction.

7. Personnel of the division will inspect periodically the construction area to check on progress and to discuss the work with the local agency's inspection staff.

Section 5882 of the Public Resources Code provides that the Legislature shall make a specific appropriation of funds allocated from the Small Craft Harbors Revolving Fund for any authorized purpose with the exception of planning loans. The program reported herein does not require specific appropriation as it is furnished from a \$5,000,000 appropriation from the Investment Fund made by Item 421.5, Budget Act of 1958. In addition to the state funds, federal and local funds will be used to meet the total estimated costs. In addition, allocations are also anticipated from the Small Craft Harbor Bond Fund. While initial commitments against this source are reported in the 1959-60 fiscal year the first sale of bonds is not anticipated until the 1960-61 fiscal year.

13	<b>GENERAL ANALYSIS</b>			
14	This is a public assistance program financed by county, state and federal governments for needy persons 65 years and over who meet certain other requirements such as residence, property, etc. The Social Security Act amendments of 1958 increased the federal participation in categorical aid payments resulting in an increase in the maximum monthly grant to \$90 on October 1, 1958. Amendments enacted by the 1957 Legislature increased the maximum monthly grant by \$16 to cover special needs and provided for medical vendor payments on behalf of recipients effective October 1, 1957. Further amendments enacted by the 1959 Legislature, effective January 1, 1960, increased the basic grant to \$95 and the maximum grant to \$115.

## GENERAL ANALYSIS

This is a public assistance program financed by county, state, and federal governments. The primary purpose of the program is to provide family security and financial assistance for needy children who are deprived of parental support or care. The program is designed to keep children in a setting of their own family and to enable parents to continue responsibility for the family living plan. If it is not possible for a child to live with his own family, the program aims to provide the best substitute care in the home of a relative, in a foster home, or in a chil-

dren's institution. The program is administered by county welfare departments and supervised by the State Department of Social Welfare. On October 1, 1956, grants were increased an average of \$2 per individual as a result of 1956 amendments to the Social Security Act. Amendments enacted by the 1957 Legislature increased the maximum monthly payments to 1-child families, and provided for medical vendor payments on behalf of recipients.

<sup>a</sup> Grants from the Federal Government and expenditures therefrom are not included in the overall budget totals.

## County Administration of Assistance Programs

## GENERAL ANALYSIS

The cost of local administration of the aged, blind, children, and disabled programs is borne by the county and the Federal Government. Federal funds for county administration are received by the State and forwarded to the counties on the basis

of estimates prepared by the State Department of Social Welfare subject to adjustment upon receipt and audit of the counties' statements of expenditures.

Old Age Security:			
Total expenditures	\$19,011,076	\$20,912,200	\$22,376,000
Less: County share—paid by counties	—9,557,093	—10,540,800	—11,278,600
Net Expenditures—Federal funds	\$9,453,983	\$10,371,400	\$11,097,400
Aid to the Needy Blind:			
Total expenditures	\$1,523,470	\$1,706,300	\$1,876,900
Less: County share—paid by counties	—772,011	—901,100	—991,100
Net Expenditures—Federal funds	\$751,459	\$805,200	\$885,800
Aid to Needy Children:			
Total expenditures	\$18,669,829	\$21,470,300	\$23,617,300
Less: County share—paid by counties	—9,712,066	—11,167,800	—12,284,500

## Local Inspection of Homes and Agencies Caring for Aged and Children

## GENERAL ANALYSIS

This program provides for the reimbursement of expenses incurred by counties and cities who may maintain approved services for the licensing and inspection of agencies for child care and home finding, and agencies for the care of the aged in accordance with the provisions of Sections 1622 and 2302 of

the Welfare and Institutions Code. This reimbursement is the amount found necessary by the State Department of Social Welfare for proper and efficient administration, not to exceed \$65 per year for each new or renewal license issued.

Inspection services—aged and children's homes	\$1,209,624	\$1,228,752	\$1,278,720
New and renewal licenses granted—monthly average	(1,571)	(1,610)	(1,665)

## Reimbursement to Counties for Administration and Cost of Care of Adoptions

TOTAL EXPENDITURES (General Fund) ..... \$1,711,904 \$2,173,715 \$2,642,176

## GENERAL ANALYSIS

The State Department of Social Welfare may license county adoption agencies to accept relinquishments and make adoptive placements of children and to investigate and report on petitions for adoption filed independently. Licensed county agencies are reimbursed by the State for all administrative costs pursuant to Section 1641 of the Welfare and Institutions Code. Fees received from adoptive parents (up to \$300) are abated to the cost of administration.

The cost of care for children committed to the State Department of Social Welfare or a public adoption agency pursuant to Section 226 (c) of the Civil Code is reimbursed by the State. Provision is made in the estimate for 1960-61 to license 3 additional counties for the acceptance of relinquishments.

Relinquishment Adoptions, Children Accepted—Licensed Counties:			
Total .....	2,672	3,042	3,395

## County Administration of Child Welfare Services

TOTAL EXPENDITURES (Federal funds <sup>c</sup>) ..... \$119,761 \$220,260 \$157,031

## GENERAL ANALYSIS

This program provides for reimbursement of expenses incurred by counties for administration of child welfare services in rural areas and in areas of special need and is financed entirely by federal funds.

## EXPENDITURES

For county administration of child welfare services ..... \$119,761 \$220,260 \$157,031

<sup>a</sup> Composed of savings in administration, \$265,732; cost of care of committed children, \$349; and decreased fees from adopting parents, \$18,497.

<sup>b</sup> Composed of savings in administration, \$40,521.

<sup>c</sup> Grants from the Federal Government and expenditures therefrom are not included in the overall budget totals.

## Salaries of Superior Court Judges

TOTAL EXPENDITURES (General Fund)----- \$2,330,487 \$2,860,870 \$3,280,875

Under the provisions of Section 68206 of the Government Code, the State contributes toward the salary of each judge of the superior courts in accordance with the population of the county as determined by Section 68207 of the Government Code.

The amount budgeted is to provide the State's share of salaries of the 303 judges authorized by existing law. This amount includes 32 judgeships authorized during the 1959 legislative session. Of these, 28 were effective September 18, 1959; 3 will become effective July 1, 1960, and 1 is effective October 1, 1960.

Included in the total is 1 authorized position not yet established in San Joaquin County which is contingent upon action of the board of supervisors as provided by Section 69598 of the Government Code.

Chapter 1746, Statutes of 1959, amended Section 68201 of the

Government Code which fixes salaries for superior court judges. This amendment provided that superior court judges of counties with a population of 100,000 or more would receive \$20,000 and that judges of counties with less than 100,000 population would receive \$18,000.

The following statement shows the contribution by the State and by the county toward the salary of each judge:

Population of county	State's share	County's share	Total salary
250,000 or more-----	10,500	9,500	20,000
100,000 or more but less than 250,000	12,500	7,500	20,000
40,000 or more but less than 100,000	10,500	7,500	18,000
40,000 or less-----	12,500	5,500	18,000

## County Veterans Service Officers

TOTAL EXPENDITURES (General Fund)----- \$488,097 \$350,000 \$350,000

## GENERAL ANALYSIS

Pursuant to Sections 970-973 of the Military and Veterans Code, the State may reimburse the counties for part of the cost of county services maintained for assistance to veterans and the dependents of deceased veterans in presenting and pursuing such claims as the veterans may have against the United States arising out of war service and in establishing the veteran's right to any privilege, preference, care, or compensation provided for by the laws of the United States or of this State. The amount paid each county, conditioned upon the observance of certain

standards and regulations, is determined by the California Veterans' Board except that the payment toward the salary of the county service officer shall not exceed \$75 per month. Payments are also made for partial cost of assistants' salaries and operating expenses. All counties except Alameda, Alpine, Los Angeles, San Francisco and Sutter have established county veterans service officers. No changes in program are proposed in this budget.

## GENERAL ANALYSIS

74	Section 6816.1 of the Public Resources Code authorizes the State Soil Conservation Commission to make grants in the amount of \$100,000 annually to soil conservation districts organized pursuant to Division 9 of the Public Resources Code, to assist such districts in carrying out any work they are authorized to undertake whenever the commission determines that such work is necessary for the welfare of the people of the State.	Unused funds of previous years are carried forward over a 3-year period.
75		The projects must advance the conservation, use, and management of soil and water resources on croplands, forest, range, and watershed lands within soil conservation districts.
76		The projects fall within the following general categories:
77		
78		
79		
80		
81		
82		
83		
84		
85		
86

## Part IV. Appendix

### Treasury Funds Not Included in Budget Totals

---

#### 1. WORKING CAPITAL AND REVOLVING FUNDS

##### CORRECTIONS:

- Correctional Industries Revolving Fund
- Inmate Welfare Fund

##### EDUCATION:

- California Industries for the Blind Manufacturing Fund
- Surplus Property Revolving Fund

##### FISCAL AFFAIRS:

- Printing Fund
- Purchasing Revolving Fund

##### NATURAL RESOURCES:

- Soil Conservation Development Fund

##### PUBLIC WORKS:

- Division of Architecture Revolving Fund

##### WATER RESOURCES:

- State Water Pollution Control Fund
- Water Resources Revolving Fund

##### STATE BUILDINGS FINANCED BY LOANS FROM TREASURY FUNDS

#### 2. PUBLIC SERVICE ENTERPRISE FUNDS

##### SAN FRANCISCO PORT AUTHORITY:

- San Francisco Harbor Improvement Fund

##### SAN FRANCISCO WORLD TRADE CENTER AUTHORITY

##### TOLL BRIDGE AUTHORITY:

- San Francisco-Oakland Bay Bridge Construction Fund
- San Francisco-Oakland Bay Bridge Toll Revenue Fund
- Southern Crossing Engineering Fund
- Richmond-San Rafael Bridge Construction Fund
- Carquinez Straits Bridge Construction Fund

##### STATE COLLEGE HOUSING FACILITIES:

- State College Dormitory Revenue Fund
- State College Auxiliary Enterprise Fund

##### INDUSTRIAL RELATIONS:

- Compensation Insurance Fund

##### VETERANS AFFAIRS:

- Veteran's Farm and Home Building Fund of 1943

#### 3. RETIREMENT FUNDS:

- Judges' Retirement Fund
- Teachers' Retirement Funds
- Legislators' Retirement Fund
- State Employees' Retirement Fund

#### 4. FEDERAL, TRUST, AND AGENCY FUNDS:

- Department of Employment

#### 5. DISTRICT, COUNTY, AND CITRUS FRUIT FAIRS

## CLASSIFICATION OF FUNDS IN THE STATE TREASURY

The budget totals of revenues and expenditures reflect the activities of many separate funds. See Schedule 5 for complete list of these funds. They are segregated into the following classifications:

**GENERAL FUND**—Consists of money received into the State Treasury not required by law to be credited to any other fund, to be used for general purposes of State Government.

**SPECIAL FUNDS**—Funds created to receive certain revenues or to finance particular activities which are for general purposes of State Government or are for activities subject to the regulatory or police powers of the State.

**OTHER FUNDS**—See Schedule 6 for list of funds which are not included in the budget totals. They consist of moneys which were derived from sources other than general or special taxes, licenses, fees or other state revenues. There are receipts from the Federal Government, funds created for accounting purposes, receipts from sale of lands, or moneys held in trust. Funds not included in the budget totals are segregated into the following classifications:

*Working Capital and Revolving Funds*—Funds created to finance services for governmental agencies for which charges are made at cost to maintain a fixed accountability. The charges are reflected as expenditures in the budget of the agency receiving the commodity or service.

*Public Service and Enterprise Funds*—Activities operated under state control for the benefit of the public. Funds are derived from charges to those who use the service and no support is derived from taxes, licenses or other state revenues. These functions are not subject to the regulatory or police powers of the State.

*Bond Funds*—To hold proceeds from sale of bonds and to finance projects for which the bonds were authorized. The cost to the State is charged at the time interest payments are made and when the bonds are redeemed.

*Retirement Funds*—Moneys held in trust by the State for retirement benefit payments.

*Debt Service Funds*—Moneys held by the State to be used for payment of interest or for redemption of bonds.

*Trust and Agency Funds*—Funds holding moneys in trust pending disbursement to trustors, moneys received from the Federal Government to be expended for specific purposes, and other funds which do not derive their resources from taxes or other state revenues, or are in the nature of transitory funds created for the convenience of accounting receipts or disbursements which are not necessarily revenues or expenditures.

**TREASURY FUNDS FOR WHICH NO DETAILED TRANSACTIONS  
ARE REPORTED IN THE BUDGET**

- Ballot Paper Revolving Fund:* The fund is used by the Secretary of State to purchase paper for sale to counties and municipalities for their use for election ballots.
- Old Age and Survivors Insurance Revolving Fund:* The fund is used by the State Employees' Retirement System to clear employer and employee contributions under the Federal Old Age and Survivors Insurance Program from public agencies included in the agreement between the State and the Federal Government.
- State Payroll Revolving Fund:* The fund is used by the State Controller for payment of salaries through the Central Payroll System.
- India Basin Sinking Fund:* Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of the San Francisco Harbor Bonds.
- San Francisco Seawall Sinking Fund No. 2:* Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of the San Francisco Harbor Bonds.
- San Francisco Seawall Sinking Fund No. 3:* Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of the San Francisco Harbor Bonds.
- San Francisco Seawall Sinking Fund No. 4:* Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of the San Francisco Harbor Bonds.
- School Land Fund:* A nonexpendable endowment fund for public school purposes. Revenues consist of payment of principal and purchase price on sale of school lands. The interest received on the investment of this fund is deposited in the School Fund.
- Special Deposit Fund:* Accumulation of numerous trust funds deposited by state and private agencies for a specific purpose. This fund also contains unclaimed checks and deposits pending either payment to the proper persons or transfer to the General Fund. The transactions of this fund are so numerous and so indefinite that no attempt is made to estimate the volume that will flow through the fund.
- State Park Contingent Fund:* Receives moneys from gifts, bequests, from municipal or county appropriations, or donations, for improvements, additions, or administration of the state park system. The amounts received are disbursed in accordance with the provisions of the donations.
- Surplus Money Investment Fund:* Excess money in those funds which do not have other provision for investment may be transferred to this fund, the pooled resources are invested and the interest earned is prorated to the contributing funds.
- Tax-deeded Land Rental Trust Fund:* Receipts are derived from leases made by the State Controller covering property deeded to the State for taxes. The rentals are paid semiannually to the county in which the property is located for distribution to the taxing agencies.
- Treasury Trust Deposits:* Provides for the State Treasurer's Central Banking System.
- Unclaimed Property Fund:* This fund accounts for all unclaimed moneys held by the State.
- Condemnation Deposits Fund:* Contains deposits held in trust pending settlement of court cases in condemnation proceedings.
- Medical Care Premium Deposit Fund:* Contains money received from state and federal sources pending disbursement for medical care for public assistance recipients.

## GENERAL ANALYSIS

## Objectives

The Correctional Industries program of the Department of Corrections was established to provide a balanced and diversified work program enabling inmates to acquire the good work habits and occupational skills necessary for successful adjustment so that they may be returned to free society as useful citizens. This program plays a significant role in the elimination of inmate idleness which would otherwise contribute to the causes of both mental and physical degeneration.

Another objective of the Correctional Industries program is to develop work programs which will contribute to the rehabilitation of prisoners with minimum competition with private industry and free labor.

## Program and Performance

The Correctional Industries Commission, representing organized labor, industry, agriculture, and the general public, is the policymaking body for this activity. It is empowered to recommend productive industrial and agricultural enterprises for the prisons. This includes determining the advisability and suitability of establishing, expanding, diminishing, or discontinuing any industrial or agricultural enterprise. No enterprise may be established unless it falls within the formula adopted by the Legislature which sets forth a maximum gross annual production for any such enterprise.

The Correctional Industries program includes 25 industrial and 15 agricultural enterprises. These have been established in each of the correctional institutions of the department with the exception of the Medical Facility. About 2,900 men, or approximately 13.7 percent of the total prison population, will be employed during the 1960-61 fiscal year. Activities include industrial operations such as the license plate factory at Folsom and the cotton textile mill at San Quentin.

A building for the paper converting and container enter-

prises approved for Soledad is scheduled for completion in May 1960. Installation of equipment should be completed to enable full production sometime between January 1, and June 30, 1961. This budget includes a loan of \$200,000 from the General Fund in the amount of the equipment for these enterprises.

Dairy production at Chino, Soledad, and the Deuel Vocational Institution has been increased to furnish fresh milk to other nearby state institutions. The tobacco enterprise at the California Men's Colony has increased production by about 50 percent and has added additional products to its line.

Numerous new items have been added or are under consideration for production in existing approved enterprises. Prototypes of new lines of modular office furniture to be sold to tax-supported agencies have been approved and tooling for these new products has advanced to the point where actual production by the end of 1959 is possible.

A sales catalog has been completed and distributed to governmental agencies, resulting in a much wider acceptance of the products of the program and an increase in the sales tempo for numerous products.

Sales of products resulting from the employment of men in this program totaled \$5,899,692 during the 1958-59 fiscal year. Estimated sales for the 1960-61 fiscal year are \$7,153,650 including progress payments for the next full issue of license plates, production of which is now under way. Products are sold only to the tax-supported agencies of the State and its political subdivisions.

New positions proposed on a workload basis include 1 clothing factory foreman at the Institution for Men, Tehachapi Branch; 6 correctional officers and 1 junior mechanical engineer at the State Prison at Folsom; 1 superintendent and 2 foremen for the new paper enterprises at the Correctional Training Facility; and 1 assistant dairyman at Deuel Vocational Institution.

## GENERAL ANALYSIS

## Objectives

The Inmate Welfare Fund is a trust fund held in the State Treasury and administered by the Director of Corrections for the benefit, education, and welfare of inmates in institutions under the jurisdiction of the Department of Corrections. The fund was established by Section 5006 of the Penal Code in 1945. The primary source of revenue for the fund is profits from the sale of items to inmates at canteens maintained in each institution under the Department of Corrections. Other revenue is derived from sale of handicraft items, donations, and other miscellaneous sources. Funds so received are deposited in the State Treasury and allotted to the various institutions through departmental budgetary procedures. These allotments provide funds for the operation of the canteens and hobby shops and for the purchase of athletic and recreational equipment and supplies such as books, television sets, small games, and rental of motion picture films.

## Program and Performance

Since the 1954-55 fiscal year the gross fund revenues have been in excess of \$1,000,000 annually. Of this revenue, 92 percent is used in operating the canteen, the handicraft shops and

meeting administrative expenses, while approximately 8 percent is available for the recreation and welfare of the inmates. Until the 1956-57 fiscal year these funds were used primarily for athletic supplies, film rentals, games, and books. During the 1957-58 fiscal year a revised policy of allocations of expenditures between the Inmate Welfare Fund and the General Fund was established due to inconsistencies in the original policy. Under the revised policy the Inmate Welfare Fund assumed the cost of original complements of television sets for the institutions; the replacement and upkeep of such equipment; film rentals; fiction books for the libraries; and all athletic and recreational supplies not a part of the organized athletic program. The General Fund assumed the cost of the organized athletic, educational, and religious programs, part of which had been previously financed from the Inmate Welfare Fund. The installation of original complements of television sets for all institutions was completed during the 1957-58 fiscal year. The current major program of the Inmate Welfare Fund is the buildup of the institution libraries fiction book inventory to the standards recommended by the American Correctional Association.

Department of Education

CALIFORNIA INDUSTRIES FOR THE BLIND MANUFACTURING FUND PROGRAM

1 The California Industries for the Blind operates 3 subsidized  
2 production centers located at Oakland, Los Angeles, and San  
3 Diego. These centers supply sheltered factory employment to  
4 blind, partially sighted, and some physically handicapped per-  
5 sons. The manufacture of such items as brooms, mattresses,  
6 mops, pillowcases, surgical drapes and wrappers, rugs, brushes,  
7 plastic articles, and rubber mats is the main production pro-  
8 gram together with the fabrication and assembly of many prod-  
9 ucts on a subcontract basis. The administrative and other over-  
10 head expenses are a direct charge against the General Fund and  
11 manufacturing activities are financed from working capital sup-  
12 plied by the California Industries for the Blind Manufacturing  
13 Fund, a revolving fund created from the General Fund, into  
14 which the proceeds from the sale of the products are deposited.  
15 For many years, these centers were considered as separate  
16 entities with little direct central administration. The goal is now  
17 toward development of a strong central administration with  
18 adequate administrative control over the program. The program  
19 is administered by a general manager under the direction of

the Chief, Division of Special Schools and Services of the  
Department of Education in Sacramento.

During the 1958-59 fiscal year, 241 full-time equivalent blind  
or otherwise physically handicapped workers were employed in  
the 3 centers, and the payroll was \$572,209. Sales for the 3  
centers amounted to \$2,725,234 and the cost of goods sold,  
including salaries and wages, amounted to \$2,576,060 producing  
an addition to Surplus of \$136,728.

The program for 1960-61 is based on the employment of 265  
full-time equivalent workers compared to 241 in 1958-59. 4  
professional staff (2 quality control men and 2 district sales rep-  
resentatives), plus the necessary clerical staff were added on an  
interim basis in 1959-60 to improve the quality of goods and  
services and to increase the facilities for obtaining new sales  
outlets. They are shown as proposed new positions in 1960-61 as  
it is desired to continue them as permanent positions. It has  
been possible to reduce the staffing of the delivery service unit  
by 2 positions in the Los Angeles Center due to adoption of  
more efficient methods. In other respects the program is con-  
tinuing at the same level of operation.

8					
9					
10	<b>GENERAL ANALYSIS</b>				
11	<b>Objectives</b>				
12	The State Educational Agency for Surplus Property is authorized to co-operate with the Federal Government and its agencies in securing federal surplus property for distribution to eligible institutions.				
13	housing that which is received, processing and repairing where required, and distributing it. The work force required has increased in proportion to the workload as measured in terms of service and handling charges made. Such increase is shown in the following table, with number of positions given being equivalent full-time positions, including temporary help and overtime.				
14					
15					
16					
17					
18	<b>Program and Performance</b>				
19	Surplus property of all federal agencies, including surplus foods, is made available to schools and other eligible institutions through this agency. All expenses of procuring, handling and distributing such property are paid by the agency and recovered by nominal service charges. Any excess service charges are refunded to the participating agencies after the close of each fiscal year. Reserves are maintained sufficient to meet any unliquidated obligations.				
20	The increasing importance of this agency's operations is indicated by the following tabulation:

## GENERAL ANALYSIS

## Objectives

To provide centralized services for state agencies in the operation of an automotive pool, centralized purchase and distribution of supplies and maintenance and repair of communication equipment, office machines and automotive equipment.

## Program and Performance

In order to better provide for some of the needs of state agencies the 4 divisions of this fund were established; Stores Section, State Garages, Radio Maintenance and Office Equipment Repair.

The use of a centralized store for the purchase of supplies provides a cheaper and more economical service for state agencies than which they could provide for themselves.

The centralized automotive pool makes better utilization of automobiles and at the same time provides good service at a low cost to state agencies. It is anticipated that there will be 2,029 vehicles in the pool by June 30, 1961 which are expected to be driven 33,375,000 miles in the 1960-61 fiscal year. This is an increase of 2,882,000 miles over the 30,493,000 miles estimated for 1959-60. A 10 percent increase in the rental rate of pooled vehicles is scheduled to take effect July 1, 1960.

Provision is made for opening the Oakland Garage on April 1, 1960, the Fresno Garage on July 1, 1960 and the new Los Angeles Garage on October 1, 1960. The increased number of state-owned vehicles requires the addition of 3 additional positions in the Sacramento Garage and 2 additional positions in San Francisco.

Communication technicians are distributed in key locations throughout the State to provide installation modification and maintenance service to approximately 5,300 units of state-owned radio equipment. It is proposed to add 6 technicians to install, maintain and repair the State-wide microwave system. An additional radio telephone technician is proposed to handle the increased workload of radio maintenance for state agencies in the San Francisco area. 1 position is provided primarily to handle an increased number of vehicle radios.

The office machine repair shop provides maintenance and repair service to approximately 7,650 state-owned typewriters, adding machines and calculators located in the Sacramento area.

An augmentation of \$410,000 is proposed in the 1960-61 fiscal year from Item 274, Budget Act of 1959, the availability of which is proposed to be extended.

## GENERAL ANALYSIS

## Objectives

The Soil Conservation Development Fund was created by Chapter 1032, Statutes of 1949, as amended, with an appropriation of \$1,000,000 to provide for the acquisition of soil conservation machinery, equipment, and buildings and rental thereof to soil conservation districts. Section 12.2 of the Budget Act of 1958 returned \$400,000 of this amount to the General Fund in 1957-58 as the full amount was no longer required for operation of the fund. The fund is administered by the State Soil Conservation Commission.

## Program and Performance

Equipment requests are investigated to determine whether there is appropriate need, to select suitable types, prepare purchase specifications, receive deliveries of equipment, and regularly inspect the operation and maintenance of equipment.

During recent years, federal surplus equipment has been available to soil conservation districts and the purchase of equipment for districts with state funds has decreased in volume. Loans are now made primarily for reconditioning and modifying the surplus equipment to adapt it for soil conservation use.

(Auth.)

ACTUAL  
1958-59

ESTIMATED  
1959-60

PROPOSED  
1960-61

GENERAL ANALYSIS

The division is responsible for the survey and examination of any potential site for a construction project, the planning and designing of major repair, alteration, and maintenance projects, and the supervision, inspection and control of actual construction which is being carried out by private builders under contract to the State. Under certain conditions, the division may also undertake construction by the use of day labor hired by

the division.

The division prepares preliminary plans, specifications and estimates of cost for proposed minor and major Capital Outlay expenditures as the basis for requests to the Legislature for project authorization and appropriations. The staff is related to authorized construction projects, and is adjusted upwards or downwards in accordance with workload fluctuations.

STATEMENT OF OPERATIONS

Authorized by Section 14030 of the Government Code, the Division of Architecture Revolving Fund provides the Division of Architecture with a working revolving fund from which to pay the cost of architectural services and construction for state agencies. The resources consist entirely of transfers, subject to the approval of the Department of Finance, from appropriations

for construction and improvements made to the several agencies. Expenditures are reported in the budgets of the agencies to which the appropriations were made. Any unexpended balance remaining after completion of a project is returned to the appropriation and fund of origin.

LEGAL CITATIONS

The functions of the Division of Architecture are defined by Part 5, Division 3 of the Government Code and the following are the more significant provisions:

Section 14100. "The State Architect has general charge, under the department, of the erection of all state buildings \* \* \*"

Section 14255. "Whenever provision is made by law for any project which is not under the jurisdiction of the Department of Water Resources, the project shall be under the sole charge and direct control of the Department of Public Works." A project is defined by Section 14254 as any construction or improvement of any state structure or improvement which will exceed \$5,000 in cost.

Section 14256. "If the total cost of the project will not exceed \$50,000 the State Architect may, with the approval of the Director of Finance, authorize the agency concerned to carry out the project directly."

Sections 14270 to 14275 require full and complete plans and estimates prior to entering into any contract for a project require work on all projects be done under contract awarded to the lowest responsible bidder except in the event it is found that such procedure is not in the best interest of the State and prohibit awarding a contract in excess of the estimate.

Sections 14290 to 14402 prescribe in detail the contract procedure to be followed, including advertising for bids, qualification of bidders, award of contracts, and payment.

18					
19					
20					
21	This revolving fund was created by Chapter 1551, Statutes				
22	of 1949, to provide loans to districts and municipalities for				
23	sewage and drainage facilities. The fund consists of \$1,000,000				
24	appropriated thereto plus interest payments on loans.				
25					
26					
27	Allocations are made to municipalities and districts upon				
28	approval of the State Water Pollution Control Board and the				
29	Director of Finance. Allocations for loans to the Summerland				
30	Sanitary District and the Tomales Sewer Maintenance District				
31	are pending.

36	Totals, Division of Administration-----				\$2,057,057	\$2,572,732	\$2,856,431
37	DIVISION OF RESOURCES PLANNING						
38	The Division of Resources Planning is responsible for all						
39	phases of water resource investigation and planning within						
40	the department. The division also makes co-operative investiga-						
41	tions with county and federal agencies on a cost-sharing basis,						
42	and performs investigations for other government agencies on a						
43	contractual basis.						
44	The division functions through 3 branches: Project Develop-						
45	ment Branch, Engineering Services Branch and Special Ac-						
46	tivities Branch. The Project Development Branch conducts						
47	studies and investigations leading to authorization by the Legis-						
48	lature of project construction by the department. This includes						
49	area investigation and planning under the California Water						
50	Development Planning Program; co-operative investigations						
51	with local agencies, and major studies being made at the specific						
52	direction of the Legislature.						
53	The Engineering Services Branch is concerned with the col-						
54	lecting, assembling, developing, and analyzing of all statewide						
55	basic water resources data and with providing the other branches						
56	and divisions of the department with technical assistance and						
57	supervision.						
58	The Special Activities Branch conducts engineering investi-						
59	gations and prepares reports on aspects of water resources not						
60	covered by the other 2 branches. It is responsible for all water						
61	quality investigations undertaken by the department and for						
62	studies connected with local water problems in addition to other						
63	activities under the Water Code and federal statutes.						
64	Although there are positions included as proposed new posi-						
65	tions for 1960-61 in the planning division, the total number of						
66	positions in this division shows a net decrease from 1959-60						
67	to 1960-61. New positions are included to provide for the estab-						
68	lishment of a project management office, that will be respon-						
69	sible for program control, project co-ordination, and scheduling.						
70	New positions are also included for additional planning services						
71	related to construction and for planning programs, including						
72	the administration of the local projects assistance program.

## DIVISION OF DESIGN AND CONSTRUCTION

The Division of Design and Construction is charged with the responsibility for the design, construction supervision and operation of all authorized state water projects. Other work for which the division is responsible are the continuing flood control activities of the department, including maintenance and inspection programs, repair and restoration of flood damaged property, engineering and hydrologic studies, related to flood control operation of the Flood Operations Center, and the mobile and telemetering communication systems. The division

also has responsibility for investigation and correction of beach erosion problems, and the design and supervision of construction of hydraulic structures for other state agencies.

Additional positions are included for construction supervision and laboratory services related to construction supervision. 5 positions are added to the project management office, established in 1959-60 to improve program control, project co-ordination and scheduling.

## SALARIES AND WAGES

(See page 317, Salary Supplement)

SOUTHERN CALIFORNIA DISTRICT OFFICE

The Southern California District is responsible for all departmental activities in San Luis Obispo, Santa Barbara, Ventura, Los Angeles, Orange, San Diego, Imperial, Riverside, San Bernardino, Inyo and portions of Kern and Mono counties. The district is presently organized under the district engineer into an Executive Staff, Administration Branch, Planning Branch and a Design and Construction Branch. The programs that are

managed by the Planning Branch and the Design and Construction Branch are closely parallel to the programs managed by the Division of Resources Planning and the Division of Design and Construction.

The proposed new positions in the Los Angeles District are provided for workload increases in various programs, including administration of local project assistance program.

## STATE OFFICE BUILDINGS FINANCED BY LOANS FROM TREASURY FUNDS

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1958-59	ESTIMATED 1959-60	PROPOSED 1960-61
1	OFFICE BUILDINGS, VARIOUS CITIES			
2	(Loans From State Trust Funds)			
3	The State Building Construction Act of 1955 provides that			
4	the State Public Works Board may issue revenue bonds or			
5	certificates to provide funds to acquire or construct state office			
6	buildings when authorized by a separate act or appropriation			
7	of the Legislature. The buildings so acquired or constructed are			
8	to be leased by state agencies at a rental rate that will retire			
9	the bonds or certificates and provide for the payment of interest.			
10	The State Public Works Board has entered into an agreement			
11	with the Board of Administration of the State Employees' Retirement			
12	System whereby that agency will purchase certificates to			
13	finance the construction of the 8 office buildings and the Los			
14	Angeles garage authorized by Chapter 1687, Statutes of 1955, as			
15	amended by Chapter 1647, Statutes of 1957, and the Budget Act			
16	of 1958.			
17	Sites for the Sacramento, San Bernardino, San Diego, San			
18	Jose and Stockton buildings have been acquired.			
19	It is proposed that a new state office building, estimated to			
20	cost \$1,500,000, be erected in Stockton. The Budget Bill will			
21	contain a proposal to authorize the State Public Works Board			
22	to issue revenue bonds or certificates in accordance with the			
23	State Building Construction Act of 1955.			
24	Anticipated completion dates are as follows:			
25	San Francisco			February 1, 1960
26	Oakland			April 1, 1960
27	Fresno			July 1, 1960
28	Los Angeles			October 1, 1960
29	Los Angeles Garage			October 1, 1960
30	Sacramento			October 1, 1962
31	San Diego			November 1, 1962
32	San Bernardino			January 1, 1963
33	San Jose			January 1, 1963
34	Stockton			January 1, 1963
35	STATE BUILDING PROGRAM			
36	Construct Office Buildings: a			
37	Fresno	\$600,000	\$2,983,742	-
38	Los Angeles	2,903,454	7,756,129	-
39	Los Angeles (garage)	608,000	2,247,700	-
40	Oakland	1,350,000	2,908,097	-
41	Sacramento	-	100,000	\$12,689,900
42	San Bernardino	-	600,000	786,000
43	San Diego	-	150,000	3,672,000
44	San Francisco	4,300,000	2,061,766	-
45	San Jose	-	600,000	1,977,300
46	Stockton	-	-	1,500,000
47	Unallocated	-	-	1,417,746
48	Total Expenditures, Office Buildings, Various Cities	\$9,761,454	\$19,407,434	\$22,042,946
49	Less amount estimated to be expended in subsequent fiscal years	-	-	\$9,263,300
50	Net Total Expenditures, Office Buildings, Various Cities	\$9,761,454	\$19,407,434	\$12,779,646
51	HIGHWAY PATROL ACADEMY			
52	AND			
53	CIVIL DEFENSE HEADQUARTERS BUILDING, SACRAMENTO			
54	(School Land Fund)			
55	Funds were loaned for the construction of the Civil Defense			
56	Headquarters and the Highway Patrol Academy from the			
57	School Land Fund under the provisions of Chapter 1597,			
58	Statutes of 1951. Under a contract between the Governor,			
59	Director of Finance, and the Commissioner of the California			
60	Highway Patrol, the costs of these facilities are being repaid			
61	with interest at 2½ percent per annum by the respective agencies			
62	in 240 equal monthly installments.			
63	OFFICE BUILDING, SACRAMENTO			
64	(Department of Agriculture Building Fund)			
65	The Department of Agriculture Building was authorized by			
66	Chapter 11, Statutes of 1950 (First Extraordinary Session).			
67	Moneys were transferred from the Department of Agriculture			
68	Fund to the Department of Agriculture Building Fund on a			
69	loan basis to provide for construction of the building. Rentals			
70	are being paid to the Department of Agriculture Building Fund			
71	and returned to the Department of Agriculture Fund.			
72	An addition to this building is programmed, for which work-			
73	ing drawings are scheduled for completion in the current year			
74	with construction to begin in the 1960-61 fiscal year.			
75	STATE BUILDING PROGRAM			
76	Construct addition to Department of Agriculture Building a	-	\$734,300	-
77	HIGHWAY PATROL OFFICE BUILDING, SACRAMENTO			
78	(School Land Fund)			
79	Pursuant to the authority contained in Chapter 11, Statutes			
80	of 1951, a loan was made available to the Department of the			
81	California Highway Patrol from the School Land Fund for the			
82	construction of a new office building in Sacramento.			
83	The loan is being repaid in a series of 240 monthly payments			
84	together with interest at the rate of 2½ percent per annum on			
85	the unpaid balance. Provision for these payments is made in the			
86	support budget of the Department of California Highway Patrol.			
87	a Financed by loans from trust and other funds and not included in overall budget totals.

10					
11	GENERAL ANALYSIS				
12	The San Francisco World Trade Center Authority was es-				
13	tablished by Chapter 1508, Statutes of 1947, to obtain land,				
14	buildings, works, and property and to operate and maintain				
15	them so as to foster and develop domestic and international				
16	trade for the benefit of the entire State.				
17	The San Francisco World Trade Center has been in opera-				
18	tion since March 1956, under management of the San Francisco				
19	Bay Area Council, Inc., by contract. Through June 30, 1958,				
20	approximately 50 percent of the cost of operation was paid by				
21	the contractor from funds donated by businesses in San Fran-				
22	cisco to assist the center to get started. The other half was paid				
23	from Authority Funds, amounting to \$83,955 for the 1956-57				
24	and 1957-58 fiscal years. Beginning with the 1958-59 fiscal				
25	year the authority must supply the total support, with the				
26	council contributing such amounts as it wishes. During the				
27	1958-59 fiscal year the council contributed approximately \$15,000				
28	to this operation.				
29	This budget has been extended at the same level of activity				
30	as past years with provision for price and salary increases.

## Department of Public Works

## TOLL BRIDGE CONSTRUCTION AND REVENUE FUNDS

LINE	FUND CONDITION	ACTUAL 1958-59	ESTIMATED 1959-60	ESTIMATED 1960-61
1				
2	Toll bridge construction funds consist of proceeds from sale of			
3	revenue bonds, the issuance of which is authorized by the Cali-			
4	fornia Toll Bridge Authority. At the present time all toll cross-			
5	ings are situated in the San Francisco Bay area except for the			
6	proposed San Pedro-Terminal Bridge for which bonds have not			
7	yet been issued.			
8				
9	San Francisco-Oakland Bay Bridge:			
10	While currently there are no outstanding bonds against the			
11	revenues on this structure, tolls are being continued to pay for			
12	the cost of alterations and improvements authorized by Chapter			
13	2316, Statutes of 1957. Pursuant to authorization by the Cali-			
14	fornia Toll Bridge Authority on November 16, 1959, toll reve-			
15	nuues of the bridge will also be used to finance the rehabilitation			
16	and improvement of the San Mateo-Hayward Bridge and the			
17	Dumbarton Bridge pursuant to Chapter 1784, Statutes of 1959.			
18	In addition to the toll revenues on the San Francisco-Oakland			
19	Bay Bridge, the residue of bond proceeds, in separate funds			
20	designated as the San Francisco-Oakland Bay Bridge Construc-			
21	tion Fund and Southern Crossing Engineering Fund, are being			
22	used respectively for improvements to the San Francisco-Oak-			
23	land Bay Bridge and for studies of additional crossings.			
24				
25	Richmond-San Rafael Bridge:			
26	The upper deck of this bridge was completed and opened to			
27	traffic September 1, 1956. The lower level was completed in			
28	1957 and, after a period during which either one or the other

was closed for construction purposes, both levels were fully opened to traffic on August 20, 1957.

## Carquinez Straits Bridges:

The additional Carquinez Bridge, financed by toll revenue bonds issued pursuant to resolution of the Toll Bridge Authority, was opened to traffic on November 25, 1958. At the same time the original bridge was closed for improvements and reconstruction of the approaches, being reopened to traffic on April 29, 1959.

By supplemental resolution on April 23, 1959, the authority authorized the issuance of \$34,000,000 of toll revenue bonds to finance the Benicia-Martinez Bridge. Upon sale of the bonds, the proceeds were deposited in the Carquinez Straits Bridges Construction Fund and construction contracts for the bridge proper were let immediately.

## San Pedro-Terminal Island Bridge:

Chapter 74, Statutes of 1958, as amended by Chapter 1961, Statutes of 1959, authorizes the construction of a toll bridge between San Pedro and Terminal Island. Engineering studies are now under way, financed from moneys in the Special Deposit Fund. It is expected that bonds for the project will be sold after February 1960 to augment the funds appropriated by the statutes. However, the construction program is at this time uncertain as the financing has not been completely arranged; and, as a construction fund has not been established, no budgetary data concerning the project can be presented.

## GENERAL ANALYSIS

## Objectives

This program provides residential facilities for state college students, both married and single.

## Program and Performance

The housing program at the state colleges is composed of 3 phases all of which are discussed more fully later. The 3 phases are: (1) the new dormitories, funded under the provisions of the State College Revenue Bond Act; (2) the temporary facilities operated under the College Auxiliary Enterprise Fund; and (3) certain dormitories built prior to those financed under the Revenue Bond Act and which are operated by the California State Polytechnic College Foundation. These latter dormitories are not accounted for in the budget.

## State College Dormitory Revenue Fund:

In 1957 the Legislature approved an additional residence hall program to be partially financed by a loan from the Federal Housing and Home Finance Agency. The program provides capacity for 7,676 single students at the several state college campuses. The operation of the new residence halls, the retirement of revenue bonds and the establishment of required reserves, are to be funded from revenues received from rentals of the facilities.

Construction has been completed on 15 units with a capacity of 3,030, which were occupied in September of 1959. The remaining 21 units with a capacity of 4,646, are scheduled for completion so that they may begin operations during the 1960-61 school year. The 36 units will provide for the following numbers of students:

College	Men	Women	Total
California State Polytechnic College: *			
San Luis Obispo campus --	808	404	1,212
Kellogg-Voorhis campus -----	404	404	808
Chico State College -----	202	202	404
Fresno State College -----	202	404	606
Humboldt State College -----	202	202	404
Long Beach State College -----	202	202	404
Sacramento State College -----	202	404	606
San Diego State College -----	606	404	1,010
San Fernando Valley State College --	-	202	202
San Francisco State College -----	404	404	808
San Jose State College -----	606	606	1,212
Totals -----	3,838	3,838	7,676

\* In addition to the facilities operated out of the State College

Dormitory Revenue Fund and the College Auxiliary Enterprise Fund the California State Polytechnic College Foundation now operates 1,066 dormitory rooms and 75 family living units at the San Luis Obispo campus and 219 dormitory rooms at the Kellogg-Voorhis campus.

These dormitories are 3-story units, each containing 101 2-bed rooms on each campus except at San Francisco where 2 6-story buildings with 202 rooms each are provided.

## College Auxiliary Enterprise Fund:

During the fall of 1946 the Federal Public Housing Administration provided temporary housing facilities for veteran students at Chico, Fresno, Humboldt, San Francisco, and San Jose State Colleges. These facilities were operated by the various colleges by agreement with the FPHA from 1946 until October 31, 1948, at which time title to all facilities was transferred to the State by Public Law 796 of the Eightieth Congress, and their operations were financed through the General Fund support appropriation of the individual colleges as an interim measure.

On August 1, 1949, Chapter 1485, Statutes of 1949, established the College Auxiliary Enterprise Fund, to which was transferred the excess of income over expenditures for prior operations. All rents, charges and fees are paid into this fund and are appropriated therefrom to the Department of Education for maintenance, repairs, and operation of student housing facilities. Funds may also be expended for construction. These facilities provide housing for veterans or other students at established rates. The facilities operated by the College Auxiliary Enterprise Fund are listed below:

	Family Dwelling Units	Dormitory Units	Trailers
Chico -----	45	15 (30 individuals)	-
Humboldt -----	8	76 (76 individuals)	-
San Francisco -----	84	-	-
San Jose -----	148	-	18
Totals -----	285	91	18

This budget reflects some changes in existing facilities due to the removal of some units due to age and condition and to make room for construction of permanent instructional facilities.

9	GENERAL ANALYSIS				
10	The California State Compensation Insurance Fund is a self-	Insurance Commissioner for insurers generally, and provides that the rates shall be only those sufficient to carry out the specific purposes stated in law. Expenditure estimates are predicated on the expectation of a continued increase in population growth and business activity. Changes in economic conditions may result in corresponding changes in the various items of expense.			
11	supporting enterprise created to offer insurance protection to				
12	employers at the lowest possible cost. This fund operates in				
13	competition with other insurance carriers, acting as a yardstick				
14	for the securing of fair premium rates for employers and fair				
15	treatment for injured employees. The fund is required by law				
16	to use the same rates and classifications established by the State

## GENERAL ANALYSIS

## Objectives

This division assists eligible veterans in the acquisition of a farm or a home. It is a self-sustaining activity not supported by funds derived from taxation.

## Program and Performance

Within the limitations set forth by law, the department may purchase a farm or home and in turn enter into a contract with the veteran for the sale of the property to the veteran. The cost to the department cannot exceed \$15,000 in the case of a home or \$40,000 in the case of a farm. The contract with the veteran is usually written for a term of 20 years, and provides for monthly payments which include interest currently computed at 3½ percent, but scheduled to increase to 4 percent as of February 1, 1960. 17 district offices have been established throughout the State to process applications for assistance under this program.

Property purchases by the department for resale to veterans currently average 1,350 per month. Past year purchases were at an average rate of 1,579 per month.

From 1922 to June 30, 1959, 144,977 homes and 1,993 farms were acquired for resale to veterans at contract values totaling \$1,266,292,717. Included in the total are 108,790 properties financed for World War II veterans, and 16,632 for veterans of the Korean emergency. As of June 30, 1959, 47,114 contracts had been paid in full.

The Home Protection Plan of life insurance was started on December 1, 1938. Each veteran who is insurable is covered for the exact amount of the unpaid balance of his contract at a cost of 35 cents per month per \$1,000 insurance. The premium was originally set at \$1 per month per \$1,000 but favorable experience permitted a gradual reduction to the present cost. To June 30, 1959, 2,475 insured contract holders have died and \$9,642,944 paid in full settlement of balances due. This insurance provides family protection which generally would not otherwise be carried. In addition to life insurance coverage, insurance against fire and other hazards is required. Coverage under blanket policies is at the low rates of 48 cents (homes) and \$1.20 (farms) per \$100.

The 1960-61 budget is based on the assumption that funds for farm and home purchases will continue at the current level of availability. The increased expenditures for bond interest and fire insurance premiums reflect the cumulative effect of the growth of the loan program. These expenditures are more than offset by revenues received.

As a result of the management survey now in progress, 57 positions are to be deleted during the current year. These positions are: 2 assistant manager and 24 construction examiner positions; 29 property appraiser positions; 2 clerical and temporary help positions. This reduction in staff was possible through increased efficiencies, improved methods, and reorganizations.

33				
34	The State Teachers' Retirement System is composed of			
35	approximately 241,252 active accounts. Approximately 23,026			
36	members will receive retirement benefits during 1960-61. The			
37	present system became operative July 1, 1944.			
38	3 major funds constitute the State Teachers' Retirement			
39	Fund. They are the Teachers' Permanent Fund, the Retirement			
40	Annuity Fund, and the Annuity Deposit Fund. Chapter 1583,			
41	Statutes of 1957, authorized the 3 funds to be combined for			
42	administrative purposes only. All other aspects of each fund			
43	are carried on as before.			
44	The Teachers' Permanent Fund receives its revenue from			
45	members' contributions, contributions from the school district,			
46	interest from invested reserves, and yearly appropriations by			
47	the State from the General Fund. Retirement benefits from the			
48	fund are currently \$600 per year to the person who is credited			
49	with 30 or more years of service, and who retires at age 60.			
50	A pro rata amount of that amount is paid for less than 30			
51	years of service, and all benefits from this fund are usually			
52	discounted or improved actuarially if the member retires at an			
53	age less than 60 years or over.

84				
85				
86				

aries of the justices and judges and deposited in the fund. It is anticipated that there will be 539 members contributing to this retirement fund effective July 1, 1960. One additional judgeship is authorized effective September 1, 1960 and 2 October 1, 1960.

The Retirement Annuity Fund receives its revenue from the members' contributions, interest from invested reserves, and yearly appropriations by the State from the General Fund. Under Chapter 1395, Statutes of 1955, school districts and employing state agencies are required to pay contributions equal to 3 percent of the certificated payroll to this fund. The retirement benefits from this fund are computed on the basis of the member's sex, total service, age at retirement, and the average salary earnable in the 3 highest consecutive years of earnings. Subventions are made to local retirement systems in lieu of State Teachers' Retirement System benefits to local members on the basis of service credited by the local systems, and the amount of local fund allowances.

The Annuity Deposit Fund consists of members' annuity deposits made between July 1, 1935, and July 1, 1944, together with the interest earned thereon. Chapter 1395, Statutes of 1956, has reopened this fund for additional member contributions. Members who have contributed to this fund receive an annuity at the time of their retirement but the benefit is based solely on the value of the members' accumulated contributions.

## GENERAL ANALYSIS

The Department of Employment administers the state employment service and unemployment insurance and disability insurance systems. The department also performs certain functions as an agent of the Federal Government in connection with three programs; the Veterans Readjustment Assistance Act of 1952 which provides for unemployment allowances for veterans of the Korean conflict, the Federal Unemployment Compensation Program under Title XV of the Social Security Act which provides unemployment insurance benefits for unemployed federal workers, and the Servicemen's Unemployment Compensation Act of 1958 which provides unemployment insurance benefits for unemployed ex-servicemen. The Veterans Readjustment Assistance Act of 1952 program is scheduled to terminate in January of 1960. A minor amount of funds is also provided in the 1959-60 and 1960-61 fiscal years for termination of the Temporary Unemployment Compensation program. The payment of benefits under this program ended in July 1959.

The employment service program provides a job placement and counseling service for employers and workers, including a farm placement service. The program includes special services to veterans, older workers, youth, and physically handicapped persons, and provides for the collection and dissemination of labor market information.

The unemployment insurance program provides for payment of benefits to workers who are unemployed through no fault of their own; but are able to, available for, and actively seeking work, and meet the eligibility requirements of the Unemployment Insurance Code. These benefit payments are made from the Unemployment Trust Fund which is financed through payroll tax on employers who are subject to the provisions of the California Unemployment Insurance Code.

The Unemployment Insurance Code provides for payment of disability and hospital benefits in 2 ways: either by the State from the Unemployment Compensation Disability Fund, financed by a 1 percent tax on wages paid by workers in employment subject to provisions of the California Unemployment Insurance Code, or by voluntary plans as provided by the code.

The budgetary requirements of the major programs are based on workload—unit time calculations determined from past experience as modified by analysis. The workload data for the Disability Insurance Administration and the Unemployment Insurance Administration on which the budget is based are shown in the table below:

## Workload—Unit Time Data—Disability Insurance Administration:

## Workload Data:

(a) State plan claims-----	306,789	351,190	383,000
(b) Voluntary plan claims-----	192,981	183,990	175,000
(c) Voluntary plans approval and review process-----	40,641	72,040	44,565
(d) Appeals handled-----	3,923	4,090	4,585
(e) Wage earner refunds-----	189,143	220,000	241,000

## Unit Time Data—Hours Per Unit:

(a) State plan claims-----	2.54	2.42	2.46
(b) Voluntary plan claims-----	.39	.36	.36
(c) Voluntary plan approval and review process-----	1.43	1.18	1.50
(d) Appeals handled-----	10.04	10.15	9.48
(e) Wage earner refunds-----	.39	.35	.33

## Workload Data—Unemployment Insurance

## Administration:

(a) Initial claims-----	1,474,346	1,383,799	1,296,000
(b) Weeks claimed-----	8,844,650	6,885,350	6,396,300
(c) Nonmonetary determinations-----	519,658	440,926	412,300
(d) Benefit appeals-----	31,912	28,183	28,900
(e) Subject employer contribution reports-----	1,239,805	1,287,460	1,320,100
(f) Nonagricultural placements-----	464,561	466,800	475,000
(g) Agricultural placements-----	869,525	1,000,000	1,020,000

## 1958-59 Fiscal Year

During the 1958-59 fiscal year the number of state plan disability claims filed increased 7½ percent over the 1957-58 fiscal year and 23 percent over the previous 1956-57 fiscal year. In the 1958-59 fiscal year improved performance permitted a decrease in cost per unit of work.

Unemployment insurance benefit workloads decreased sharply over the high level 1957-58 fiscal year. This decrease started

with the ending of the recession of the fall of 1957 and spring of 1958.

The employment service continued to expand its services to employers and work applicant groups. This included increased service to groups which require a specialized service and include: handicapped, veterans, youth, the older worker, parolees, alien refugees, and other groups requiring special assistance.

## GENERAL ANALYSIS—Continued

## 1959-60 Fiscal Year

For the 1959-60 fiscal year, it is anticipated that the principal workload item of State Plan disability claims will be 14½ percent higher than actual experience for 1958-59 fiscal year. The increased amount requested for Disability Insurance Administration in the current and the budget year over the actual year is attributable to the increase in workloads. The unit time requirements for each workload unit are relatively stable over the 3-year period.

The budget for Unemployment Insurance-Employment Service

## 1960-61 Fiscal Year

For the 1960-61 fiscal year it is anticipated that the principal workload item of State Plan disability claims will increase 9 percent over the number of claims that will be received in the 1959-60 fiscal year. The estimated claim filing rate takes account of the effect of the liberalization of benefits approved by the 1959 legislative session in Chapter 2155 which has an effective date of January 1, 1960. Staffing estimates are based upon workload estimates in relation to actual unit time experience. Further improvements in performance are being sought through a statewide review of clerical operations. Additional mechanization of operations is being explored.

The 1960-61 fiscal year Unemployment Insurance-Employment Service budget is based on an estimated unemployment insurance claim filing workload which is slightly less than the estimated workload for the current 1959-60 fiscal year. It is anticipated that employment will expand perhaps less rapidly than in the 1959-60 fiscal year but more rapidly than will the labor force. There is every reason to expect that a series of new employment records will be established in the trade, service, government, and finance industries. As this agency operates on a performance budgeting basis the lower workload estimate results in a decrease in the number of positions estimated for Unemployment Insurance-Employment Service administration for the 1960-61 fiscal year. The estimated claim rate takes account of the effect of the liberalization of benefits approved by the 1959 legislative session in Chapter 2154. Numerous improvements in operating procedures have been effected in the 1959-60 fiscal year as a result of the employee work improvement and management appraisal programs that are currently in effect. These savings are reflected in the estimated requirements for the 1960-61 fiscal year in both the Unemployment Insurance-Employment Service and Disability Insurance programs.

The amount included for support from the Department of

is based on a prediction that the economic recovery that characterized the last half of the 1958-59 fiscal year will continue through the 1959-60 fiscal year. Levels of unemployment will be substantially lower than in the preceding fiscal year particularly in the July-December period. The decrease of 496 positions in the estimate of requirements for UI-ES administration for the 1959-60 fiscal year over the 1958-59 fiscal year is attributable to this workload decrease as well as the termination of the Temporary Unemployment Compensation program in July of 1959.

Employment Contingent Fund for the fiscal year 1960-61 includes the following principal items:

1. A recurring amount for a part of the cost of operation of the community employment program. This program involves work with local communities in the promotion and development of employment programs and with individual employers in the development of new industrial projects. The other part of the amount required for the support of this program is paid from federal funds.
2. An amount of \$170,780 for costs to the Unemployment Insurance-Employment Service program for the additions to the administrative pro rata charges (Legislature and Secretary of State) that were added by Chapter 1844, Statutes of 1959. In a letter dated October 23, 1959, the Federal Bureau of Employment Security advised this agency that expenditure of granted funds could not be approved for the purposes set forth in Chapter 1844. The amount required is therefore requested from the Department of Employment Contingent Fund.

The amount of \$19,000 requested from funds made available to this agency under Section 903 of the Social Security Act, as amended (Reed Act), is to provide for costs of the Department of Finance audits of the Unemployment Insurance-Employment Service program. In a previous determination the Federal Bureau of Employment Security ruled that such costs could not be paid from funds granted to this agency for administration of the Employment Security program. In view of this determination the Legislature provided in Item 417.5 of the Budget Act of 1959 for payment of the costs for the fiscal year 1959-60 from funds made available to this agency under Section 903 of the Social Security Act, as amended (Reed Act). This request provides for continuation of the payment of these costs from this source of funds for the fiscal year 1960-61.

## OFFICE OF THE DIRECTOR AND DEPUTY DIRECTOR

The Department of Employment is administered by the Director of Employment appointed by the Governor subject to approval of the Senate. He is responsible for all phases of the administration of the California Unemployment Insurance Code except for certain quasi-judicial functions which are the re-

sponsibilities of the Appeals Board. Two deputy directors are appointed by the Governor. These deputies assist the director in the administration of the code and act for the director in his absence.

28	Unemployment Compensation Disability Fund-----				123,747	138,585	144,216

## Program and Performance

The Appeals Board formulates its own administrative policy and through its secretary and chief referee administers the affairs of the entire division. Area referee offices have been established in San Francisco, Sacramento, and Los Angeles. The referees staffing these offices have the primary responsibility of hearing and deciding appeals from determinations relating to unemployment insurance benefits, disability benefits, overpayments and disputed employer tax liability matters. A decrease of 11 positions is anticipated in the area referee offices due to the estimated decrease in benefit appeals workloads.

## DIVISION OF PUBLIC EMPLOYMENT OFFICES AND BENEFIT PAYMENTS

**Objectives**

The Chief, Division of Public Employment Offices and Benefit Payments, directs the activities of this division. The responsibility of this division is the administration and operation of the Unemployment Insurance and Employment Service Programs.

## Program and Performance

The program of the division is carried on at 3 levels, the central office, the area offices and the local and farm labor field offices.

At the central office level there are 7 sections, Office of Chief of Division, Organization and Management, Employment Service Technical, Benefit Payments Technical, Interstate, Farm Placement Technical and the Occupational Analysis Field Center.

The Organization and Management Section makes special studies to determine conformity of local offices with prescribed

policies, standards and methods of operation and is responsible for planning of space and personnel needs and determination of the need for and development of procedures and standards in the general field of organization and management of the division. The technical sections provide program leadership and make policy determinations. The Interstate Unit processes interstate claims for payment.

The Occupational Analysis Field Center is one of 5 in the United States and serves as the point of analysis and processing of job analysis data gathered by state employment security agencies in 11 western states. The coastal, interior and southern area offices direct the operation of local employment service and unemployment insurance offices and farm placement field offices. These area offices also assist in determining program needs and formulating plans to meet these needs.

Local offices provide direct services to the public and placement, testing and counseling, labor market information and

property acquisition work of the department and performs business management functions for the Interior Area. The Area Business Management Units in Los Angeles and San Francisco perform field work in the fiscal, personnel, property and other administrative services functions and maintain rosters of field office employees.

Decreases of 1 and 2 positions are anticipated in 1960-61 for the Standards and Methods Section and Area Business Management Units, respectively, because of the completion of temporary assignments for the fiscal year 1959-60.

A decrease of 50 positions is anticipated in the Accounting Section due to the estimated decrease in unemployment insurance benefit workloads during 1960-61.

In the Tabulating Section 11 proposed new positions are included based on estimated increase in the tax and disability insurance workloads.

DIVISION OF DISABILITY AND HOSPITAL BENEFITS

Objectives

The Division of Disability and Hospital Benefits is responsible for the administration of the disability insurance program.

Program and Performance

The central office operation develops plans, standards and procedures, and evaluates all disability insurance claim operations. The Claim Control Section provides claims service for the disability district offices; processes voluntary plan claim reports; supervises all voluntary plan activities for conformity with requirements of the California Unemployment Insurance Code; maintains voluntary plan files.

The 19 disability district offices, within their assigned geographical districts, evaluate first claims under state coverage for disability insurance to determine if they meet minimum standards; determine eligibility of claimants for disability insurance; prepare and issue disability insurance payments to eligible claimants; maintain all claim records for disability insurance

claimants; conduct a field visit program which includes unscheduled visits to residence of claimants and visits to employers to review installation of voluntary plans for conformity with the California Unemployment Insurance Code; process and answer all correspondence with employers, claimants, doctors, institutions, and other state or governmental agencies.

46 proposed new positions are included for the district offices based on estimated workload increases. These additional positions will be assigned to the district offices according to the workload requirements. This increase is partially offset by a decrease of 7 in the Claim Control Section where a review of existing voluntary plans needed because changes in law enacted by the 1959 Session of the Legislature will be completed in the fiscal year 1959-60.

The medical director formulates medical policies, programs, and standards for the disability insurance program of the department. Offices are maintained in Sacramento, Los Angeles, and San Francisco.

## Department of Finance—Fairs and Expositions Division

### DISTRICT AND COUNTY AGRICULTURAL AND CITRUS FRUIT FAIRS

#### GENERAL ANALYSIS

There are 78 fairs or expositions which are operated by state agencies or with financial assistance from the State. The 51st District Agricultural Association was abolished effective January 1, 1960, by Chapter 1733, Statutes of 1959. They are authorized for the purpose of holding fairs, expositions and exhibitions of all the industries and industrial enterprises, resources, and products in the State, with a view of improving, exploiting, encouraging and stimulating this production.

The California State Fair and Exposition, a state institution within the Department of Finance, conducts the California State Fair in Sacramento. The Sixth District Agricultural Association maintains a permanent exhibit building in Los Angeles. 50 other district agricultural associations, which are state institutions, conduct district fairs; 24 counties conduct county fairs, and 2 nonprofit corporations conduct citrus fruit fairs. All of the agencies conducting these fairs, except the Los Angeles County Fair and the 2 citrus fruit fairs, are required to submit budgets to the Department of Finance for approval.

Budgets of the California State Fair and Exposition and the Sixth District Agricultural Association are not included in this section. The complete budgets of these 2 agencies are included in the State Operations Section and the Capital Outlay Section of the budget. The budget for the California State Fair and Exposition will be found on pages 322 to 325 and on pages 797 to 798. The budget of the Sixth District Agricultural Association will be found on pages 326 to 330 and on pages 798 to 799.

The expenditure programs of 75 district and county agricultural fairs and 2 citrus fruit fairs are included in this section of the budget. On the following pages are shown summaries of budgets for 51 district fairs, 24 county fairs, and 2 citrus fruit fairs in California. Each budget contains a statement of revenues, expenditures, surplus, and a brief history and program of the fair.

The Department of Finance, through the Fairs and Expositions Division, supervises the operations of 73 of the 74 district and county fairs in California which receive financial assistance from the State. The Los Angeles County Fair and the 2 citrus fruit fairs are not under supervision of the Fairs and Expositions Division.

All-year use of fairgrounds facilities has increased greatly over the past few years as buildings and grounds have been steadily improved. Interim uses include community gatherings, recreational activities, conventions, livestock sales, 4-H and Future Farmers meetings, sports events, school sessions, farm labor camps, and relief headquarters in times of disaster.

Full-time managers are employed by both district and county fairs. Other permanent employees of district agricultural associations have civil service status.

In an effort to improve the fair program the Fairs and Expositions Division co-operates in the conduct of schools of instruction for fair managers and directors; sponsors an annual conference for training of judges who officiate at fairs; holds annual meetings with Future Farmers and 4-H officials and with representatives of breed associations and exhibitors' groups to revise rules and regulations and the master premium list which details amounts that can be paid for the many classes and types of exhibits. These functions and activities are in addition to the fiscal and technical supervision by the Department of Finance over these 73 agencies.

The law does not restrict the area to be served by a district, county, or citrus fruit fair. Some of the fairs attract and encourage exhibitors from all over the State, while the exhibitors at other fairs are limited to the district or county in which the fair is conducted or to such district or county and contiguous areas.

In the majority of cases fair operations are accounted on a calendar year basis. The fairs operating on other than a calendar year are indicated in the detailed budgets.

#### District Agricultural Associations

Regional agricultural societies first received financial assistance from the State in 1861. After the adoption of the new Constitution of 1879, the regional agricultural societies were succeeded by district agricultural associations authorized by the Legislature of 1880 as state agencies. Section 80 of the Agricultural Code fixes the boundaries of 51 agricultural districts. There are 50 districts organized and holding fairs in addition to the Sixth District which maintains a permanent exhibit in Los Angeles.

Each of the district agricultural associations is a state institution administered by a board of 9 directors appointed by the

Governor. The organization and operation of district agricultural associations are governed by Sections 80 to 97 of the Agricultural Code. District agricultural associations are subject to the laws and administrative regulations which apply to state agencies generally and to specific rules and regulations which apply only to district agricultural associations or to district and county fairs. District fairs are conducted under budgets approved by the Department of Finance and practically every action taken by an agricultural association requires departmental approval. The Audits Division of the Department of Finance audits the premium awards made at the fairs and makes post-audits as well.

Revenues received by the Sixth District Agricultural Association, Los Angeles, are deposited in a special fund in the State Treasury and this association operates out of this special fund under appropriations by the Legislature. This district does not receive an allocation under the provisions of Section 92 of the Agricultural Code.

The 1-A District Agricultural Association, San Francisco, receives an annual appropriation of \$250,000 and the 48th District Agricultural Association, Los Angeles, receives an annual appropriation of \$125,000 under the provisions of Section 19622 of the Business and Professions Code. Neither of these associations receives an allocation under the provisions of Section 92 of the Agricultural Code.

The remaining 48 district agricultural associations receive annual allocations on the basis of premiums paid at their respective fairs.

#### County Agricultural Fairs

The majority of the county fairs are conducted by nonprofit associations acting as agents of the respective boards of supervisors under the provisions of Government Code Section 25905, and receive allocations under the provisions of Section 92 of the Agricultural Code. In a few cases fairs are conducted directly by the county. County fairs, except Los Angeles County Fair, conduct their operations under budgets approved by the Department of Finance. The Audits Division of the Department of Finance audits the premium awards made at the fairs and makes post-audits as well.

The Los Angeles County Fair is conducted under the provisions of Section 25906 of the Government Code. The County of Los Angeles receives an annual appropriation of \$250,000 for support of the fair under the provisions of Section 19622 of the Business and Professions Code. The county does not receive an allocation under the provisions of Section 92 of the Agricultural Code.

The remaining 23 counties which receive funds for the encouragement of agricultural fairs receive allocations under the provisions of Section 92 of the Agricultural Code.

#### Citrus Fruit Fairs

Citrus fruit fairs receive an allocation under the provisions of Section 19626 of the Business and Professions Code.

The National Orange Show, a nonprofit corporation, receives an annual allocation of \$150,000 from the 5 percent of the first balance of the Fair and Exposition Fund which is appropriated for the encouragement of citrus fairs under the provisions of Section 19626 of the Business and Professions Code.

The Cloverdale Citrus Fair, a nonprofit corporation, receives an annual allocation of \$30,000 from that portion of the 5 percent of the first balance of the Fair and Exposition Fund which exceeds the amount which may be allocated to the National Orange Show under the provisions of Section 19626 of the Business and Professions Code.

The National Orange Show and the Cloverdale Citrus Fair are the only citrus fruit fairs which have qualified to receive allocations under the definition of citrus fruit fairs as contained in Section 94 of the Agricultural Code and Section 19627 of the Business and Professions Code.

Section 94.5 of the Agricultural Code provides that upon dissolution of a citrus fair all property of the fair or association after payment of outstanding debts shall escheat to the State. The citrus fairs do not receive allocations under the provisions of Section 92 of the Agricultural Code.

#### Allocation of State Funds

Sections 19622, 19626, 19626.1, 19627, and 19630 of the Business and Professions Code provide that part of the revenue received from pari-mutuel wagering on horse racing shall be used

for the support and encouragement of and capital outlay at district and county agricultural fairs and citrus fruit fairs. A statement showing the distribution of the Fair and Exposition Fund appears in the Capital Outlay Section of the budget on page 800.

Section 19622 makes annual appropriations to district and county agricultural fairs as follows:

Support of the Los Angeles County Fair-----	\$250,000
Support of 1-A District Agricultural Association	250,000
Support of 48th District Agricultural Association	125,000

Section 19626 provides that 5 percent, but not more than \$180,000, of the balance remaining after deducting certain appropriations shall, subject to statutory limitations, be paid to citrus fruit fairs. This section also provides that 40 percent, but not more than \$4,680,000, of the first balance shall, subject to statutory limitations, be apportioned for encouragement of county and district agricultural fairs under the provisions of Section 92 of the Agricultural Code.

Section 19630 of the Business and Professions Code appropriates \$2,250,000 annually from the remaining balance of the Fair and Exposition Fund for capital outlay purposes at county, district, and citrus fruit fairs. These funds are allocated by the Director of Finance upon approval of the State Public Works Board. The State Fair, the 1A, Sixth, and 48th District Agricultural Associations, and the Los Angeles County Fair are not eligible to receive allocations from this appropriation.

Apportionments under the provisions of Section 92 of the Agricultural Code and Section 19627 of the Business and Professions Code have been forwarded to each fair in January of the year following the fair on which such allocations are based. These funds have been included in the balance of funds available for operation in the year in which the fair was held. Starting with the 1960-61 fiscal year the funds to be apportioned will be allocated and forwarded to the fairs monthly from current revenue paid into the Fair and Exposition Fund. The total apportionment for the fiscal year will be forwarded to fairs by March or April. The estimated amount to be forwarded to each fair during the period July 1, 1960 to December 31, 1960 has been included in the detailed budgets. In order to implement the changeover from the January distribution to the monthly distribution, \$500,000 was made available by Section 19626.1 of the Business and Professions Code to be allocated, in such amounts as deemed necessary by the Department of

Finance, to supplement the funds apportioned and forwarded to the fairs in the 1959-60 fiscal year. The amount which can be so allocated to any 1 fair is limited to \$30,000.

The funds allocated for the encouragement of district and county agricultural fairs under the provisions of Section 92 of the Agricultural Code and Section 19627 of the Business and Professions Code are apportioned on the basis of premiums paid at the annual fairs conducted by the respective districts and counties subject to 2 limitations. The amount of premiums paid by a fair which may be used as a basis of apportioning funds to that fair is limited under the provisions of Section 92 of the Agricultural Code. This limitation on each individual district and county increases each year that a fair is held. The maximum amount which may be apportioned and forwarded to any 1 fair during any fiscal year is limited to the amount required on the basis of need as determined by Department of Finance, but not to exceed \$65,000.

The fairs which expect to receive allocations under the provisions of Section 92 of the Agricultural Code submit their proposed premium lists for review by the Fairs and Exposition Division before the premium lists are printed. The proposed premium lists are reviewed to determine if they comply with the master premium list and to determine the suitability of the proposed offerings for the individual fair.

Fairs Classification Committee

The Fairs Classification Committee which was created in 1955 was abolished in 1959.

Fairs Allocation and Classification Committee

Under the provisions of Section 92.7 of the Agricultural Code as amended in 1959, the Fairs Allocation and Classification Committee was established consisting of 7 Members of the Senate and 7 Members of the Assembly. The committee is authorized to investigate, study, and analyze any or all facts and matters relating to the operation and financing of the 71 district and county fairs which receive or are eligible to receive funds allocated under the provisions of Section 19627 of the Business and Professions Code. The committee is required to report to the Legislature at the commencement of each regular session and to include in such reports its recommendations, if any, as to necessary or desirable legislative action. The provisions of the Joint Rules of the Senate and Assembly apply to the committee.

6	The 1-A District Agricultural Association was organized in 1931, and conducts 2 livestock shows each year at the Cow Palace, located on the boundary of San Francisco and San Mateo Counties. The Grand National Livestock Exposition featuring livestock, a horse show and a rodeo, is conducted in the fall and the Grand National Junior Livestock Exposition for junior exhibitors is conducted in the spring. The 1959					Grand National Livestock Exposition was conducted from October 30th to November 8th. The 1960 dates are October 21st to October 30th. The 1959 Grand National Junior Livestock Exposition was conducted March 21st to March 25th. The 1960 dates are April 9th to April 13th. The Cow Palace is used and is well suited for larger interim event rentals.

1	GENERAL ANALYSIS									
2										
3										
4	The present activities of the 22d District Agricultural Association date from 1933. Annual shows are conducted on the association's fairgrounds located at Del Mar consisting of general livestock and other exhibits and a national horse show. In 1936 an agreement was entered into with the Del Mar Turf Club granting a franchise for the purpose of conducting racing meets on association grounds. The rental is based on a percentage of parimutuel wagering during the race meets. In 1954 a subfranchise agreement was entered into between the Del Mar Turf Club and Operating Company, Incorporated, for the conducting of race meetings.									
5	The 1959 fair was conducted from June 26th to July 5th. 11,619 exhibits entered by 2,522 exhibitors were judged at the fair. The 1960 fair dates are June 24th to July 4th.

<b>GENERAL ANALYSIS</b>										
1	The present activities of the association date from 1936. Annual fairs are conducted on the association's fairgrounds, located just outside the City of Red Bluff, leased from the County of Tehama at a rental of \$10 per year. In addition, the association owns 8 acres adjacent to the leased property. The lease expires				in 1998. The 1959 fair was held August 6th to August 8th and consisted of general livestock and other exhibits. 6,688 exhibits entered by 967 exhibitors were judged at the fair. The 1960 fair dates are August 4th to August 6th.

		District Fund	State Fund	Total	District Fund	State Fund	Total	District Fund	State Fund	Total
1	<p>GENERAL ANALYSIS</p> <p>Present activities of the association date from 1937. Annual fairs are conducted on the association's grounds known as Bolado Park located approximately 8 miles from the City of Hollister. San Benito County Fair is also conducted on these grounds. The 1959 fair was held from October 2d to October 4th and consisted of general livestock and other exhibits. The rather large nonfair revenues and expenditures as shown below are due to the fact that the association operates, on a year-round basis, a swimming pool, picnic area, barbecue area, and other facilities. 3,855 exhibits entered by 851 exhibitors were judged at the 1959 fair. The 1960 fair dates are September 30th to October 2d.</p>

5	The present activities of the association date from 1929. Annual fairs are conducted on fairgrounds leased from the City of Santa Maria at an annual rental of \$350. The lease expires in 1966; however, there is an option of renewal for an additional				15 years. The 1959 fair was conducted July 22d to July 26th. 5,772 exhibits entered by 1,122 exhibitors were judged at the fair. The 1960 fair dates are July 20th to July 24th.

2	GENERAL ANALYSIS									
3										
4	The association was organized in 1921. No information on									
5	activities is available prior to 1930. Annual fairs are conducted									
6	on association fairgrounds located in the City of Imperial and									
7	leased from the County of Imperial at an annual rental of \$5.									
8	The lease expires in 1987. The 1959 fair was conducted from									
9	February 28th to March 8th. 5,042 exhibits entered by 1,457									
10	exhibitors were judged at the fair. The 1960 fair dates are									
11	February 26th to March 6th. In view of the fact that fairs are									
12	held early in the year, the association has adopted a fiscal									
13	year ending June 30th for accounting purposes.

The association was organized in 1935. Annual fairs are held on the association's property located in the Bandini section of East Los Angeles. The Great Western Dairy Show featuring dairy animals is conducted in June each year. The Great Western Livestock Show featuring fat market animals is conducted in the late fall. In 1959, the Great Western Dairy Show

was held June 17th to 21st and the Great Western Livestock Show was held November 20th to 25th. The dates for the 1960 shows are June 15th to 18th for the Great Western Dairy Show and November 18th to 23d for the Great Western Livestock Show.

## LOS ANGELES COUNTY FAIR

(Conducting the Los Angeles County Fair at Pomona)

LINE	FUND CONDITION	ACTUAL CALENDAR YEAR OF 1958			ESTIMATED CALENDAR YEAR OF 1959			PROPOSED CALENDAR YEAR OF 1960		
		County Fund	State Fund	Total	County Fund	State Fund	Total	County Fund	State Fund	Total
1	<b>GENERAL ANALYSIS</b>									
2										
3										
4										
5	The fair is conducted by the Los Angeles County Fair Association under an agreement with Los Angeles County under the provision of Government Code, Section 25906. The Los Angeles County Fair Association was incorporated as a nonprofit corporation in 1940 and succeeded to the Los Angeles County Fair, a nonprofit stock corporation, at that time. Los Angeles County receives allocations for conducting the fair under the provisions of Section 19622 of the Business and Professions Code and under its agreement with the Los Angeles County Fair Association, reimburses the association for expenditures to the extent of the state appropriations. The Department of Finance does not have any jurisdiction over the activities of the fair other than annual audit examinations by the Audits Division of the department. The 1959 fair was conducted from September 18th to October 4th. The 1960 fair dates are September 16th to October 2d.

## RIVERSIDE COUNTY FAIR

(Conducting the Riverside County Fair and National Date Festival at Indio)

FUND CONDITION	Actual Fiscal Year Ending June 30, 1958			Actual Fiscal Year Ending June 30, 1959			Proposed Fiscal Year Ending June 30, 1960		
	County Fund	State Fund	Total	County Fund	State Fund	Total	County Fund	State Fund	Total
<b>GENERAL ANALYSIS</b>									
Sponsorship of the fair by Riverside County dates from 1938. Annual fairs are held on the county's fairgrounds located just outside the city limits of Indio by and advisory committee appointed by the board of supervisors. The particular feature of the fair has always been the date exhibits, but has included livestock and other general exhibits. The 1959 fair was conducted from February 14th to February 23d. 5,927 exhibits entered by 2,140 exhibitors were judged at the fair. The 1960 fair dates are February 12th to February 22d.

## SAN MATEO COUNTY FAIR

(Conducting the San Mateo County Fair and Floral Fiesta at San Mateo)

LINE	FUND CONDITION	ACTUAL CALENDAR YEAR OF 1958			ESTIMATED CALENDAR YEAR OF 1959			PROPOSED CALENDAR YEAR OF 1960		
		County Fund	State Fund	Total	County Fund	State Fund	Total	County Fund	State Fund	Total
GENERAL ANALYSIS										
1	Sponsorship of the fair by the County of San Mateo dates									
2	from 1929. Annual fairs are held on county fairgrounds located									
3	just north of Bay Meadows race track, San Mateo, by the San									
4	Mateo County Fair Association under a contract with the board									
5	of supervisors under the provisions of Section 25905, Govern-									
6	ment Code. In the past, annual fairs have featured floricultural									
7	and agricultural exhibits and some junior livestock exhibits. A									
8	particular feature has been a horse racing meeting conducted									
9	on Bay Meadows race track under a contract with the Califor-									
10	nia Jockey Club. The 1959 fair was conducted from July 31st									
11	to August 8th. 3,773 exhibits entered by 1,158 exhibitors were									
12	judged at the fair. The 1960 fair dates are August 5th to									
13	August 13th.

## CLOVERDALE CITRUS FAIR

Conducting the Cloverdale Citrus Fair at Cloverdale

LINE	FUND CONDITION	Actual Fiscal Year Ending June 30, 1958			Actual Fiscal Year Ending June 30, 1959			Proposed Fiscal Year Ending June 30, 1960		
		Citrus Fair Fund	State Fund	Total	Citrus Fair Fund	State Fund	Total	Citrus Fair Fund	State Fund	Total
1	<p><b>GENERAL ANALYSIS</b></p> <p>This fair receives an annual state allocation under Section 19626 of the Business and Professions Code, the first such allocation being made in 1945. The Cloverdale Citrus Fair was incorporated as a nonprofit organization in 1951, prior fairs having been conducted by the Cloverdale Chamber of Commerce. Operations of the Cloverdale Citrus Fair do not come under the supervision of the Department of Finance other than through audit examinations conducted by the Audits Division of the department. No figures are presented covering the proposed activities for the fiscal year ending June 30, 1960, inasmuch as such budgets do not come under the Department of Finance. Annual show, featuring citrus displays, are conducted in the association's pavilion located in the City of Cloverdale. The 1959 show was held from February 19th to February 22d. The 1960 show dates are February 19th to February 22d.</p>

## Department of Finance—Fairs and Expositions Division

## NATIONAL ORANGE SHOW

(Conducting the National Orange Show at San Bernardino)

LINE	FUND CONDITION	Actual Fiscal Year Ending April 30, 1958			Actual Fiscal Year of May 1, 1958 to June 30, 1959			Proposed Fiscal Year Ending June 30, 1960		
		Association Funds	State Fund	Total	Association Funds	State Fund	Total	Association Funds	State Fund	Total
1	<b>GENERAL ANALYSIS</b>									
2	The National Orange Show was incorporated in 1922 and is									
3	a continuation of a nonprofit association with some modifica-									
4	tions formed in 1910. It appears that the early history of citrus									
5	fairs in San Bernardino can be traced back to 1879. The associa-									
6	tion receives an allocation under the provisions of Section 19626									
7	of the Business and Professions Code but does not come under									
8	the jurisdiction of the Government Code or other codes pertain-									
9	ing to state organizations, its actions being governed by the									
10	Corporations Code. The only jurisdiction the Department of									
11	Finance has of the activities of the association pertains to an									
12	annual audit to determine that the appropriations have been									
13	used for the general purposes provided by the statutes. Under									
14	the provisions of Section 94.6 of the Agricultural Code the									
15	National Orange Show is required to file with the Department									
16	of Finance by January 20th each year, a statement of opera-									
17	tions in the previous calendar year. Annual fairs are conducted									
18	by the association on grounds owned by the association and									
19	located in the City of San Bernardino. The 1959 show was held									
20	from April 23d to May 3d. The 1960 show dates are April 28th									
21	to May 8th.									
22	Balances at Beginning of Year:									
23	Available for operations-----	\$164,344	-	\$164,344	\$149,436	-	\$149,436	\$145,712	-	\$145,712

**CALIFORNIA LEGISLATURE**  
*1960 Budget Session*

**Titles, Ranges, Merit Adjustments  
Authorized Positions**

# Salaries and Wages

## INTRODUCTION

The budget of each agency carries a summary of positions now authorized and full detail on all proposed new positions. Detailed data on staffing of state agencies, pay-scales, salary and wage payments for existing positions are presented in this supplement. The division has been made to (1) provide a clearer picture of the service programs of each agency and to reduce the amount of detail in the budget document, and (2) consolidate all essential detail on individual positions, pay-rates and salary and wage disbursements in a separate document.

Positions authorized in each of the operating agencies on July 1, 1959, are listed by official class titles in the following pages. Salary ranges, as outlined below, and total salary and wage requirements in the 1960-61 Fiscal Year for authorized positions are given. Data on positions and disbursements in 1958-59 and 1959-60 are also shown for purposes of comparison. A descriptive summary of position titles, position count, salary ranges in state service and for instructional positions in colleges and special schools, and the State's plan for merit salary adjustments with the established ranges is presented below.

### *Position Titles*

In this supplement, positions included in the state civil service have been set forth under the official class titles established therefor by the Personnel Board. Positions exempt from civil service have been listed by the departmental titles, as set forth on the official roster of employees maintained by the State Controller under the central pay installation.

### *Positions Now Authorized*

In general, the positions included under this heading are those which were established as of July 1, 1959, together with those for which funds were provided in the 1959-60 Fiscal Year Budget or otherwise authorized as of that date. Amounts shown for positions now authorized represent actual salary payments for 1958-59 and estimated salary payments during 1959-60 and 1960-61, assuming full-year employment, unless the position is estimated to be established materially later than July 1. In such cases only the cost from date of establishment is shown and the positions are so noted.

Replacement of positions at a higher level either (a) upon completion of a training period or (b) after temporarily "down-grading" are included under this heading. Such transactions are indicated by showing both class titles on the same line, with a salary range of the minimum salary of the lower class and the maximum of the higher class. Examples: (a) administrative trainee-junior staff analyst, \$395-530, (b) junior-intermediate clerk, \$268-358.

Positions authorized temporarily until June 30, 1960, are included under "Positions Now Authorized" for 1959-60. These positions are identified by footnote and if extended into 1960-61 are shown as "Proposed New Positions" in the budget for the agency.

### *Number of Positions*

Filled positions in 1958-59 are counted to the nearest tenth of full-time and full-year employment, except for members of boards and commissions.

Authorized positions for 1959-60 and 1960-61 are counted to the nearest tenth of full-time. Full-time positions authorized to start later than July 1 are counted as full positions, but the totals are adjusted for the unused time by a deduction under estimated salary savings.

### *Salary Range*

Rates of pay listed under this heading represent salary ranges established by the State Personnel Board for civil service, state college, and Maritime Academy classifications, or fixed by statute or by the appointing authority and approved by the Director of Finance for other exempt positions.

The amounts shown indicate (1) the minimum rate and (2) the maximum rate. The minimum of the range serves as the normal entrance rate for new appointees to any position in a class and represents the lowest rate to be paid to any employee who is considered qualified for appointment to or retention in a position. The maximum of the range represents the highest rate payable to an employee who occupies any position in the class.

Under the revised pay plan adopted by the State Personnel Board, the intermediate steps in each salary range have been fixed at a uniform percentage interval of 5 percent, except that no interval is less than \$10 and none more than \$50. This plan is used also for most salaries fixed for exempt positions. A table of salary ranges in the state service is included at the end of this section. Thus, \$255-310 indicates a monthly salary range having steps of \$255-\$268-\$281-\$295-\$310. Salary ranges for instructional positions in the state colleges and in other state agencies are set forth on page 4.

## Schedule of Salary Ranges in Use in the State Service \*

Range No.	Steps					Range No.	Steps				
19-----	\$243	\$255	\$268	\$281	\$295	38-----	\$613	\$644	\$676	\$710	\$745
20-----	255	268	281	295	310	39-----	644	676	710	745	782
21-----	268	281	295	310	325	40-----	676	710	745	782	821

28-----	376	395	415	436	458	47-----	—	1,000	1,050	1,100	1,150
29-----	395	415	436	458	481	48-----	—	1,050	1,100	1,150	1,200
30-----	415	436	458	481	505	49-----	—	1,100	1,150	1,200	1,250
31-----	436	458	481	505	530	50-----	—	1,150	1,200	1,250	1,300
32-----	458	481	505	530	556	51-----	—	1,200	1,250	1,300	1,350
33-----	481	505	530	556	584	52-----	—	1,250	1,300	1,350	1,400
34-----	505	530	556	584	613	53-----	—	1,300	1,350	1,400	1,450
35-----	530	556	584	613	644	54-----	—	1,350	1,400	1,450	1,500
36-----	556	584	613	644	676	55-----	—	1,400	1,450	1,500	1,550
37-----	584	613	644	676	710						

\* Four-step salary ranges, with one step higher minimum, are established for certain classes with recruiting difficulties.

### Salary Schedule for Instructional Positions—State Colleges

(Based Upon Salaries Effective November 1, 1959)

RANK a	ACADEMIC		VOCATIONAL
	CLASS I b	CLASS II c	
Assistant -----	\$4,512- 4,980	—	—
Instructor -----	5,232- 6,360	\$5,496- 6,672	—
Junior instructor d -----	5,232- 6,360	5,496- 6,672	\$5,232- 6,360
Assistant professor -----	5,772- 7,008	6,060- 7,356	—
Intermediate instructor d -----	5,772- 7,008	6,060- 7,356	5,772- 7,008
Associate professor -----	7,008- 8,520	7,356- 8,940	—
Senior instructor d -----	7,008- 8,520	7,356- 8,940	7,356- 8,940
Professor -----	8,940-10,860	9,384-11,400	—
Principal instructor -----	8,940-10,860	9,384-11,400	9,384-11,400

a Budgetary limitations on appointment to each range are 15 percent to 20 percent for instructor or below, 25 percent to 35 percent for assistant professor, 20 percent to 25 percent for associate professor, and 25 percent to 35 percent for professor, of total authorized teaching positions.

b Persons whose academic or professional preparation is equivalent to a college degree.

c Persons whose academic or professional preparation is equivalent to a doctor's degree.

d Instructors and vocational instructors receive, in addition to the above schedule, three steps, or approximately 15 percent, if employed for 12 months instead of the normal 10-month teaching period.

### Salary Schedule for Instructional Positions—Other State Agencies

(Ranges and Criteria of Application for Teachers)

Range	Steps				
A-----	\$458	\$481	\$505	\$530	\$556
B-----	481	505	530	556	584
C-----	505	530	556	584	613
D-----	530	556	584	613	644
E-----	556	584	613	644	676
F-----	584	613	644	676	710

#### CRITERIA FOR RANGE DETERMINATION

Range A Provisional or special credential, without bachelor's degree.

Range B Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential.

Range C Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 12 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential.

Range D Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 24 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential. Or regular general secondary credential.

Ranges E and F Used only for "incentive increases" when a teacher receiving less than Range F completes at least six units in college level courses approved by his department and taken after appointment. He shall then be entitled to advance to the corresponding step in the next higher salary range for the class, and such an advance shall be known as an "incentive increase."

#### VOCATIONAL (Preparation)

Three years experience as journeyman craftsman.

Qualification for special secondary vocational Class A Credential in T and I and PS Education.

### *Merit Salary Adjustments*

Subject to availability of funds, Section 18854 of the Government Code requires that each employee in the civil service receive an increase of one intermediate step in his salary range during each year in a position in which his service rating is equal to or above a reasonable minimum, which has been fixed by the Personnel Board as "Standard" until he reaches the maximum rate.

All employees in salary ranges with a maximum step of \$358 and below and who have received permanent appointments may receive an increase from the first step to the second step of their salary range upon completing six months of qualifying service as defined by Personnel Board rules. In addition, employees in salary ranges with a maximum step of \$376 to and including \$481 may receive a similar salary adjustment when the predominant recruitment source is from outside state service. This same adjustment may be granted to employees in classes with salary ranges not exceeding \$556 where acute recruitment difficulty is experienced.

Provision for the salary adjustments to which present employees will become entitled during the balance of the current year and in the budget year has been included in the amounts shown opposite each position or group of like positions. Inasmuch as turnover of personnel generally results in replacement at a lower step in the salary range, the amount budgeted for salary adjustments opposite each position is offset by a lump sum deduction for downward adjustments included in the deduction for "estimated salary savings."

Similar amounts for salary adjustments have been provided for exempt positions, where requested by the agency. Such adjustments have been computed in accordance with the salary schedule in effect for the respective positions.

### *Salary Range Adjustments*

In determining the appropriate salary level for a class, a number of factors are taken into consideration by the State Personnel Board:

1. Rates of pay of private employers and of other public jurisdictions for comparable work.
2. Internal consistency of rates; equal pay for equal work, and pay differentials based on differences in the kind, difficulty, or responsibility of the work.
3. Conditions of work in the class.
4. The adequacy of existing appropriations which may be used for salary increase purposes.

The rates of pay of casually employed trades workers and printing trades employees in the state service are established at the hourly wage rates negotiated by unions with private employers in the county in which they are employed. These employees receive all the collateral benefits of premium pay for night work, travel time, and overtime pay provided by private industry. For these two groups, the State also pays the full cost of hospital, surgical and medical insurance benefits for both the employees and their dependents, where such health and welfare benefits are provided by private employers.

Casually employed trades workers working for the State do not receive the same benefits of vacation, sick leave and retirement that permanent state employees receive. However, the State does pay into vacation and retirement funds where such benefits are the prevailing practice in private industry.

Printing trades employees receive all of the benefits enjoyed by other state employees with one exception. Other state employees receive an average of 12 holidays a year. Printing trades employees are provided the eight paid holidays received by their counterparts in private industry.

The salary ranges shown are those in effect on November 1, 1959, and salaries and wages expenditures for both the 1959-60 and 1960-61 fiscal years reflect rates of pay then in effect. Statutory salaries are provided for at the base rates established by statute.
